### **Integrating Digital Tools Into Children's Mental Health Care** Deborah J. Jones, Margaret T. Anton, 2023-09-25

Practitioners need to know the evidence behind using digital mental health approaches and tools including telemental health visits. This accessible book provides that help as the authors guide the reader through the rationale, options, and strategies for incorporating digital tools into children's mental health care, drawing on their extensive knowledge of both current research and clinical practice. They outline the leading theoretical approaches that highlight mechanisms involved in digital tools increasing access to engagement in and outcomes of evidence-based mental health services for children and families. Through clinical vignettes and hands-on exercises included in this *Advances in Psychotherapy* series volume, mental health providers will gain insight into how to select a digital tool and identify its various uses. The reader is also given the opportunity to explore their own attitudes and comfort with incorporating digital tools into practice with their young clients and their families. Numerous downloadable handouts and forms for clinical use are provided in the appendix. **Young Children and the Environment** Julie M. Davis, 2010-02-11 *Young Children and the Environment* tackles one of the biggest contemporary issues of our times: the changing environment and demonstrates how early education can contribute to sustainable living. An essential text for students in early childhood education and a practical resource for child care practitioners and primary school teachers, it is designed to promote education for sustainability from birth to 8 years. The text refers to national and international initiatives such as Sustainable Schools, Child-Friendly Cities, and Health Promoting Schools and explores their existing and potential links with early childhood education. Groundbreaking content draws on recent literature in the areas of organisational, educational, and cultural change and environmental sustainability. Early childhood case studies and vignettes exemplify leadership in practice, and provocations are integrated throughout to inspire new ways of thinking about the environment, the wider world, young children, and the transformative power of early education.

**Resources for Educating Children with Diverse Abilities** Penny Low Deiner, 2005. This text will help students move from identifying the annual goals for a child to embedding these goals in the regular classroom routine. It is set up to provide information and then teach how to apply this information in a practical setting. **Digital Age** Linda Leveque Bennett, Michael J.
