New Directions In Museum Ethics:

New Directions in Museum Ethics Janet Marstine, Alexander Bauer, Chelsea Haines, 2013-10-31 This book considers key ethical questions in museum policy and practice particularly those related to issues of collection and display What does a collection signify in the twenty first century museum How does an engagement with immateriality challenge museums concept of ownership and how does that immateriality translate into the design of exhibitions and museum space Are museums still about safeguarding objects and what does safeguarding mean for diverse individuals and communities today How does the notion of the museum as a performative space challenge our perceptions of the object The scholarship represented in this volume is a testament to the range and significance of critical inquiry in museum ethics Together the chapters resist a legalistic interpretation bound by codes and common practice to advance an ethics discourse that is richly theorized constantly changing and contingent on diverse external factors Contributors take stock of innovative research to articulate a new museum ethics founded on the moral agency of museums the concept that museums have both the capacity and the responsibility to create social change This book is based on a special issue of Museum Management and Curatorship

The Routledge Companion to Museum Ethics Janet Marstine, 2012-05-23 Routledge Companion to Museum Ethics is a theoretically informed reconceptualization of museum ethics discourse as a dynamic social practice central to the project of creating change in the museum Through twenty seven chapters by an international and interdisciplinary group of academics and practitioners it explores contemporary museum ethics as an opportunity for growth rather than a burden of compliance The volume represents diverse strands in museum activity from exhibitions to marketing as ethics is embedded in all areas of the museum sector What the contributions share is an understanding of the contingent nature of museum ethics in the twenty first century its relations with complex economic social political and technological forces and its fluid ever shifting sensibility The volume examines contemporary museum ethics through the prism of those disciplines and methods that have shaped it most It argues for a museum ethics discourse defined by social responsibility radical transparency and shared guardianship of heritage And it demonstrates the moral agency of museums the concept that museum ethics is more than the personal and professional ethics of individuals and concerns the capacity of institutions to generate self reflective and activist practice

Critical Practice Janet Marstine, 2017-02-10 Critical Practice is an ambitious work that blurs the boundaries between art history museum studies political science and applied ethics Marstine demonstrates how convergences between institutional critique and socially engaged practice as represented by the term critical practice can create conditions for organisational change particularly facilitating increased public agency and shared authority The book analyses a range of museum interventions exploring such subjects as the ethical stewardship of collections hybridity as a methodological approach to social justice and alternative forms of democracy Discussing critical practice within the framework of peace and reconciliation studies Marstine shows how artists interventions can redress exclusions inequalities and relational frictions
