Arbus, Friedlander, Winogrand Sarah Hermanson Meister, 2017-05 **The Photographic Object 1970** Mary Statzer, 2016-01-26 In 1970 photography curator Peter C Bunnell organized an exhibition called Photography into Sculpture for the Museum of Modern Art New York The project which brought together twenty three photographers and artists from the United States and Canada was among the first exhibitions to recognize work that blurred the boundaries between photography and other mediums At once an exhibition catalogue after the fact an oral history and a critical reading of exhibitions and experimental photography during the 1960s and 1970s The Photographic Object 1970 proposes precedents for contemporary artists who continue to challenge traditional practices and categories Mary Statzer has gathered a range of diverse materials including contributions from Bunnell Eva Respini and Drew Sawyer Erin O Toole Lucy Soutter and Rebecca Morse as well as interviews with Ellen Brooks Michael de Courcy Richard Jackson Jerry McMillan and other of the exhibition s surviving artists Featuring seventy nine illustrations most of them in color this volume is an essential resource on a groundbreaking exhibition *Arbus, Friedlander, Winogrand* Sarah Hermanson Meister, 2017 Catalog of an exhibition held at the Museum of Modern Art New York **A Gust of Photo-Philia** Alexandra Moschovi, 2020-12-15 The first transnational history of photography s accommodation in the art museum Photography was long regarded as a middle brow art by the art institution Yet at the turn of the millennium it became the hot global art of our time In this book part institutional history part account of shifting photographic theories and practices Alexandra Moschovi tells the story of photography s accommodation in and as contemporary art in the art museum Archival research of key exhibitions and the contrasting collecting policies of MoMA Tate the Guggenheim the V A and the Centre Pompidou offer new insights into how art as photography and photography as art have been collected and exhibited since the 1930s Moschovi argues that this accommodation not only changed photography s status in art culture and society but also played a significant role in the rebranding of the art museum as a cultural and social site Photography's Last Century Jeff L. Rosenheim, 2020-03-09 Beginning with Paul Strand s landmark *From the Viaduct* in 1916 and continuing through the present day Photography s Last Century examines defining moments in the history of the medium Featuring nearly 100 masterworks from one of the most important private holdings of photography the book includes works by Diane Arbus Richard Avedon Walker Evans L szl Moholy Nagy Man Ray and Cindy Sherman as well as a diverse group of important lesser known practitioners A fascinating interview with Ann Tenenbaum provides a personal account of the works while the main text offers an essential history of photography that addresses the implications of calling this period the medium s last century For the Millions A. Joan Saab, 2009-04-24 An intriguing look at the changing roles of artists in modern America Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur

photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In Snapshot Photography Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film One Hour Photo and in the television crime drama Law and Order Special Victims Unit the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility

House documents, 1895 **Master of the Two Left Feet** Richard Meyer, 2022-09-13 An account of the life and work of a once famous self taught American artist of the 1940s and a study of how artists go missing from public memory The exhibition Morris Hirshfield Rediscovered at the American Folk Art Museum in New York City curated by the author and developed as an extension of the book is on view from September 22 2022 to January 27 2023 A garment worker and slipper manufacturer with no training in art Morris Hirshfield was never expected to make history Against all odds his wildly stylized paintings of female figures often nude animals and landscapes became internationally known in the 1940s Admired by Pablo Picasso Piet Mondrian and the French surrealists his peak moment of visibility occurred in 1943 when the Museum of Modern Art mounted a one man show of his work The exhibition was widely reviewed though mostly reviled by the press who jeeringly crowned Hirshfield Master of the Two Left Feet for his tendency to display the female body in that unorthodox fashion After the artist's death in 1946 his work was largely forgotten but in Master of the Two Left Feet art historian Richard Meyer rediscovers Hirshfield for twenty first century audiences offering full color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield's paintings The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist's work ever assembled Ten years in the making Master of the Two Left Feet presents Hirshfield's unlikely career as a painter not only as a missing episode in the history of twentieth century art but as a case study of the ways in which artists go missing from historical knowledge and public memory By looking closely at

Hirshfield and his milieu in 1940s Brooklyn Meyer demonstrates how much we have yet to learn and to see of the visual past
