## Peer Pedagogies on Digital Platforms

Michael Dezuanni, 2020-09-22 How a popular entertainment genre on YouTube Let's Play videos created by Minecraft players offers opportunities for children to learn from their peers Every day millions of children around the world watch video gameplay on YouTube in the form of a popular entertainment genre known as Let's Play videos These videos which present a

player's gameplay and commentary offer children opportunities for interaction and learning not available in traditional television viewing or solo video gameplay. In this book Michael Dezuanni examines why Let's Play videos are so appealing to children, looking in particular at videos of Minecraft gameplay. He finds that a significant aspect of the popularity of these videos is the opportunity for knowledge and skill exchange. Focusing on Let's Play practices, the videos themselves and fans' responses, Dezuanni argues that learning takes place through what he terms peer pedagogy, a type of nonhierarchical learning that is grounded in the personal relationships fans and players feel toward one another. Moreover, the Let's Play platform is part of a larger digital ecosystem that enables children to learn from one another in unique ways. Dezuanni explores how Let's Players enable learning opportunities, examining digital literacies, the Let's Play genre and peer pedagogies. He then presents case studies of three successful family friendly Let's Players of Minecraft, StampyLonghead, StacyPlays and KarinaOMG, microcelebrities in a microindustry. Dezuanni analyzes the specific practices and characteristics of these players, paying particular attention to how they create opportunities for peer pedagogies to emerge.

**Becoming a Future-Ready Church** Daniel Yang, Adelle M. Banks, Warren Bird, 2024-10-22 Are Church Leaders Missing the Generational Handoff? There's Still Hope. Are we building institutions that will meaningfully serve the next generation of believers and their leaders? How does a church thrive in a culture where we have to earn credibility?

How do we create a sense of belonging to the body of Christ and a strong sense of identity for the next generation? *Becoming a Future Ready Church* is a blueprint to guide you through eight critical shifts to help lead your church into the future with wisdom and hope. It describes several major converging trends that will greatly impact the church in America over the next few decades: the Great Resignation of Boomer leaders from churches, the shrinking percentage of Christians in America, and the change in felt needs among rising generations shaped heavily by anxiety, skepticism, and fragmentation. Missiologist and pastor Daniel Yang, religion journalist Adelle Banks, and church researcher Warren Bird have come together in *Becoming a Future Ready Church* to help church leaders evaluate whether their ministries are entrenched in strategies that worked well in the past but need to be adapted for the future. By helping us ask better questions about the issues and needs facing the church, they reveal practical ways in which the next generation of church leaders can gain a sturdier foothold as they navigate into the future. [Child and Adolescent Psychoanalysis in a Changing World](#) Catalina Bronstein, Sara Flanders, 2023-07-14

This book applies psychoanalytic insight to work with children and adolescents in a changing, often traumatic world. Each chapter considers how psychoanalysis can develop and be developed, assessing how in the modern world psychological disturbance and psychological trauma is manifest in new, unfamiliar ways. From new and different social and technological realities to the internet and new sexual discourse, each chapter explores how the analyst can hold onto fundamental psychoanalytic understandings of mental functioning, address the young patient's or family's need for containment while respecting the importance of drives, the varieties of psychosexuality, and the powerful impact of anxiety on psychological development. In relation to children, these authors disclose the potential destructiveness of impingements from adults on a precious, vulnerable development.
