*Organic Light-Emitting Materials and Devices* Zhigang Li,Zhigang Rick Li,Hong Meng,2006-09-12 New advances offer flexible low cost fabrication methods for light emitting materials particularly in display technologies As researchers continue to develop novel applications for these materials feasible solutions for large scale manufacturing are increasingly important

Organic Light Emitting Materials and Devices covers all aspects of **Optoelectronics** John P. Dakin, Robert G. W. Brown, 2017-10-06 **Handbook of Optoelectronics** offers a self contained reference from the basic science and light sources to devices and modern applications across the entire spectrum of disciplines utilizing optoelectronic technologies. This second edition gives a complete update of the original work with a focus on systems and applications. Volume I covers the details of optoelectronic devices and techniques including semiconductor lasers, optical detectors and receivers, optical fiber devices, modulators, amplifiers, integrated optics, LEDs and engineered optical materials, with brand new chapters on silicon photonics, nanophotonics and graphene optoelectronics. Volume II addresses the underlying system technologies enabling state of the art communications, imaging, displays, sensing, data processing, energy conversion and actuation. Volume III is brand new to this edition focusing on applications in infrastructure, transport, security, surveillance, environmental monitoring, military, industrial, oil and gas, energy generation and distribution, medicine and free space. No other resource in the field comes close to its breadth and depth with contributions from leading industrial and academic institutions around the world. Whether used as a reference, research tool or broad based introduction to the field, the Handbook offers everything you need to get started. The previous edition of this title was published as **Handbook of Optoelectronics** 9780750306461. John P. Dakin PhD is professor emeritus at the Optoelectronics Research Centre, University of Southampton, UK. Robert G. W. Brown PhD is chief executive officer of the American Institute of Physics and an adjunct full professor in the Beckman Laser Institute and Medical Clinic at the University of California, Irvine.
