Fasting against Diabetes: Starving the Sugar Demon Laing Z. Matthews,2025-09-20 Fasting Against Diabetes Starving the Sugar Demon is not a diet manual It is a liberation text A map for those ready to walk out of the prison of type 2 diabetes not with more medication but with less interference Not with gimmicks but with rhythm clarity and the rediscovery of what the body was always capable of doing healing itself This book is both personal and practical Written by a spiritual author who lost his mother to diabetic complications despite guiding her into reduced carbohydrate intake and early fasting practice this work is both a tribute and a turning point It is for everyone who has watched a loved one fade slowly under the weight of management protocols It is also for those who still carry the diagnosis and wonder Is this really permanent The answer backed by science and soul is no Type 2 diabetes is reversible The body is not broken The cure is already within but it must be given space to speak The book dismantles myths that dominate modern diabetes care That it must be managed for life That food must be eaten every few hours That hunger is dangerous That medication is the only way forward Instead it reframes fasting not as starvation but as restoration Fasting calms the insulin chaos It burns toxic reserves It cools chronic inflammation It breaks dopamine addiction to sugar snacking and stimulation It does what no pill can it teaches the body to remember its own rhythm But this book goes beyond biology It sees fasting as sacred as a spiritual rhythm long known by mystics monks yogis and healers It argues that the modern epidemic of metabolic illness is not just a medical failure but a spiritual forgetting We ve forgotten how to be empty How to be still How to stop feeding what is killing us physically emotionally and energetically The chapters guide the reader through Why the standard approach to diabetes often fails How fasting works at the cellular and hormonal levels Step by step approaches to different fast types from daily windows to extended fasts How to taper medication safely with medical support How to reintroduce food respectfully after fasting How to eat for long term metabolic peace not obsession How to restore emotional sovereignty around hunger and food How fasting reveals deeper truths about presence healing and purpose The tone is warm but no nonsense It refuses to coddle the lies but honors the suffering It respects the reader not as a passive patient but as a sovereign being capable of transformation This is a book for those ready to stop chasing numbers and start remembering their nature It ends not with a protocol but a prophetic call You were never broken You were never meant to stay sick You are a healing intelligence in human form And the time to reclaim your rhythm is now

promises women the one thing they desperately desire control Women are pursuing their health like never before Whether it's juicing biohacking clutching crystals or sipping collagen today there is something for everyone as the wellness industry has grown from modest roots into a 4 4 trillion entity and a full blown movement promising health and vitality in the most fashionable package But why suddenly are we all feeling so unwell The truth is that deep within the underbelly of self care hidden beneath layers of clever marketing wellness beckons with a far stronger more seductive message than health alone It promises women the one thing they desperately desire control Vividly told and deeply reported The Gospel of Wellness reveals how this obsession is a direct result of women feeling dismissed mistreated and overburdened Women are told they can manage the chaos ruling their life by following a laid out plan eat right exercise meditate then buy or do all this stuff And while wellness may have sprung from good intentions we are now relentlessly flooded with exploitative offerings questionable ideas and a mounting pressure to stay devoted to the divine doctrine of wellness What happens when the cure becomes as bad as the disease With a critical eye humor and empathy wellness industry journalist Rina Raphael examines how women have been led down a kale covered path promising nothing short of salvation She knows Raphael was once a disciple herself trying everything from clean eating to electric shock workouts until her own awakening to the troubling consequences Balancing the good with the bad The Gospel of Wellness is a clear eyed exploration of what wellness can actually offer us knocking down the false idols and commandments that have taken hold and ultimately showing how we might shape a better future for the movement and for our well being
