Bacolod, 2023-12-01 The contributors to this book examine the state development issues, practices and approaches to translation studies in the Philippines. The Philippines is a highly multilingual country with many indigenous languages and regional dialects spoken alongside foreign imports particularly English and Spanish. Professor Moratto and Professor Bacolod and their contributors analyse the different roles that translation plays across an extensive range of areas including disaster mitigation, crisis communication, gender bias, marginalization of Philippine languages, academe and views on sex, gender and sexuality. They look at a range of different types of translation from the translation of biblical texts to audio visual translation and machine translation. Emphasising the importance of translation as an interdisciplinary field, they use a variety of analytic lenses including anthropological, linguistics, language and culture studies, semantics, structural linguistics and performance arts among others. A comprehensive resource for scholars and practitioners of translation as well as a valuable reference for scholars across a wider range of humanities and social science disciplines in examining the culture, language and society of the Philippines.
