**Design Computing and Cognition'24** John S. Gero, 2024-09-28 This book publishes the reviewed and revised texts of the papers delivered at the Eleventh International Conference on Design Computing DCC 24 held at Concordia University in Montreal Canada These papers span the range of design research from artificial intelligence cognitive science cognitive neuroscience to computational theories applies to design The papers are published in two volumes and are grouped under the following headings Design Processes Design Creativity Design Cognition Shape and Form Design Technology AI and Design Design and Brain Behaviors and Design AI Applications These two volumes form an archival record of current cutting edge research studying design scientifically They demonstrate the range of approaches being used to characterize designing as a process At the same time they show that there is a commonality in designing independent of design discipline These volumes will be of interest to design researchers in both academia and industry and to anyone who needs to obtain a better understanding of designing

## **Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World**

Dalkir, Kimiz, Katz, Rebecca, 2020-02-28 In the current day and age objective facts have less influence on opinions and decisions than personal emotions and beliefs Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range However this creates an overall false balance as people tend to seek out information that is compatible with their existing views and values They deliberately seek out facts and data that specifically support their conclusions and classify any information that contradicts their beliefs as false news Navigating Fake News Alternative Facts and Misinformation in a Post Truth World is a collection of innovative research on human and automated methods to deter the spread of misinformation online such as legal or policy changes information literacy workshops and algorithms that can detect fake news dissemination patterns in social media While highlighting topics including source credibility share culture and media literacy this book is ideally designed for social media managers technology and software developers IT specialists educators columnists writers editors journalists broadcasters newscasters researchers policymakers and students

## **Humans and Generative AI Tools for Collaborative Intelligence**

Zhao, Jingyuan, Kumar, V. Vinod, Katina, Polinpapilinho F., Richards, Joseph, 2025-06-11 The relationship between humans and generative AI tools creates a new era of collaborative intelligence where human creativity critical thinking and empathy merge with the speed scale and precision of artificial intelligence Rather than replacing human roles generative AI systems help with problem solving ideation and decision making across diverse fields such as education healthcare design and business This enables individuals and organizations to reveal deeper insights accelerate innovation and tackle complex challenges with enhanced efficiency As these technologies advance the focus is shifting toward fostering ethical inclusive and human centered collaborations that amplify collective intelligence rather than diminish it Humans and Generative AI Tools for Collaborative Intelligence explores recent advancements in collaborative intelligence of humans and generative AI tools

with a focus on state of the art approaches methodologies and systems for the design development deployment and innovative use of those technologies and applications to advance industries and organizations It develops guidelines to help industries and organizations achieve the collaborative intelligence of humans and generative AI tools and put the power of collaborative intelligence to work This book covers topics such as digital technology robotics and deep learning models and is a useful resource for business owners computer engineers academicians researchers and data scientists
