What promise of God do I need to meditate on today?

How am I feeling? (Physically & Mentally)

How long have I spent on my phone today?

When did I last eat a whole meal?

When did I last do a kind thing for someone else?

When did I last talk to someone about my feelings?

What can I celebrate today?

When did I last go outside?

What is taking up most of my headspace?

What can I do that will bring me joy?

Checklist Mental Wellness 2025

Karen Hopkins, Bowen McBeath

Checklist Mental Wellness 2025:

Monthly Checklist of State Publications Library of Congress. Exchange and Gift Division, 1970 June and Dec issues contain listings of periodicals **Addiction and the Medicalisation of Conspicuous Behaviour** Bruce M. Z. Cohen, Martin Harbusch, Jo Reichertz, 2026-01-01 This volume critically interrogates the dominant understanding of addiction and addicts. It examines the proliferation of the addiction concept by psychiatry and other psy professions exploring the processes and underlying drivers of this form of medicalisation. Through discussions from leading scholars in the field on gambling, smoking, opioids and drug use as well as the passionate engagement with social media, sport, sex, pornography, opioids and psychedelics, the collection argues that addiction is better understood as a sociological rather than psychiatric phenomenon. It contends that the discourse of addiction is fundamentally political in nature rather than purely medical. In doing so, this timely collection fills a significant gap in academic knowledge. It will be of strong interest to scholars and students of mental health and addiction as well as to critical practitioners working in these areas **Transforming the Human Service Workplace** Karen Hopkins, Bowen McBeath, 2025-08-13 This book guides human service organizations in their transformative efforts to create greater workforce inclusion and well-being through a range of forward-thinking practices, promoting employee mental health, providing personal and professional wellness coaching, engaging in multisolving strategies, identifying supports for individuals as they enhance organizational climate building, meaningful evaluative practices with a focus on social justice, elevating the financial well-being of lower wage workers employing a trauma-informed model of leadership, and preparing graduate students with online and in-person pedagogies for inclusive supervision and leadership. Each chapter provides a unique voice and view into current needs and practices that human service managers grapple with in addressing, improving, and even transforming workforce well-being, inclusion, and leadership development. These thoughtful perspectives and proposed actions will prove inspiring in the daunting yet incredibly important work carried out every day by nonprofit and public human service managers and in the professional discourses of human service leaders, researchers, and educators. This book contains eight chapters by diverse authors representing academic institutions and human service leaders and professionals. It will be essential to students and researchers in social work, human services, and related fields. It will also be beneficial for human service professionals, nonprofit and public sector managers, educators, and scholars. The chapters in this book were originally published as a special issue of *Human Service Organizations* **A GUIDE TO THE WORLD OF TCIM MEDICINE** INSTITUTE FOR TCIM/CAM, A Guide to the World of TCIM Medicine offers an overview of current approaches, studies, and data from the field of holistic, whole person healthcare. Suitable as a resource for interdisciplinary collaboration or for expanding professional expertise. Prague. Practical

Approach to the Small Animal Emergency Patient Michael Verschoor-Kirss, 2026-02-18 A concise, accessible guide to clinical decision making in veterinary emergency medicine focused on the thought process in selecting diagnostic and treatment options. **Practical Approach to the Small Animal Emergency Patient** helps veterinarians identify the critical questions to identify diagnostic and therapeutic priorities when faced with an emergency situation. The book reviews important decision points for common emergencies and emphasizes how to think, not just what to do. The first section of the book covers general principles of emergency medicine topics such as triage, sedation, and lab work selection, while the latter part of the book applies those principles to common emergency presentations. The intention of this book is not to provide the clinician with an exhaustive review of pathophysiology but uses current research and decision-making tools to provide the clinician with the questions and tools to decide whether a certain intervention is appropriate. Each chapter also includes a section on client communication to help guide new clinicians in speaking with family members about diagnostic testing, treatment approaches, and prognosis. Written by a board-certified criticalist and practicing veterinarian in emergency medicine, **Practical Approach to the Small Animal Emergency Patient** includes information on fluid therapy, covering fluid requirements, fluid selection, patients with heart murmurs, and correcting electrolyte abnormalities. Sedation and analgesia, covering appropriate use and risks of inadequate or inappropriate sedation.
