Research Handbook on University Rankings Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact **University Rankings** Jung Cheol Shin, Robert K. Toutkoushian, Ulrich Teichler, 2011-06-06 This ground breaking and exhaustive analysis of university ranking surveys scrutinizes their theoretical bases methodological issues societal impact and policy implications providing readers with a deep understanding of these controversial comparators The authors propose that university rankings are misused by policymakers and institutional leaders alike They assert that these interested parties overlook the highly problematic internal logic of ranking methodologies even as they obsess over the surveys assessment of their status The result is that institutions suffer from short termism realigning their resources to maximize their relative rankings While rankings are widely used in policy and academic discussions this is the first book to explore the theoretical and methodological issues of ranking itself It is a welcome contribution to an often highly charged debate Far from showing how to manipulate the system this collection of work by key researchers aims to enlighten interested parties *World University Rankings and the Future of Higher Education* Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence *World University Rankings and the Future of Higher Education* is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond

statement of purpose and securing strong letters of recommendation The book concludes with extensive advice from admission officers and successful international students *Barriers to Equal Educational Opportunities* United States. Congress. House. Committee on Education and Labor,2008 **Student Use of Rankings in National Magazines in the College Decision-making Process** Michele Howard McManus,2002 College rankings are widely depicted as vital tools for making informed decisions about the college selection process Based on sales volume and the diversity of ratings currently in existence there is little doubt that rankings are big business and are undeniably here to stay On the other hand very little factual information is available about students actual use of rankings in the college decision making process It is clear that rankings such as those published by US News World Report are now part of the landscape in our system of higher education However the problem is to establish the extent students use rankings and to determine user characteristics based on demographics and institutional type The paramount purpose of this research study is to determine the importance of college rankings in national magazines on students institutional choice Analysis of data provided by the Cooperative Institutional Research Program CIRP provides a greater understanding of the impact of rankings on students college decision making process Specific research questions for this study include 1 Do students perceive college rankings to be an important factor in selecting their institution of choice 2 Does the importance attached to rankings vary significantly when response patterns are examined between students attending ranked national universities and those schools that are not ranked 3 Does the importance attached to rankings vary significantly when response patterns are examined between students attending ranked national liberal arts colleges and those colleges that are not ranked 4 Does the importance attached to rankings vary significantly when response patterns are examined between students attending public or private national universities 5 Does the importance attached to college rankings in national magazines vary significantly when response patterns are examined by gender age place of residence distance from permanent home academic achievement financial status or ethnicity Utilizing two US News ranking categories a total of 40 institutions from 13 states in differing geographic regions were selected for this research Public and private institutions and ranked and unranked schools were included in this analysis In addition each of these colleges participated in the CIRP for fall 2000 For this study there are 14 541 first time full time freshmen represented in the sample Of these students 8827 attend national universities while 5714 are enrolled in liberal arts colleges The majority of students included in this study placed some level of importance on college rankings Ratings in newsmagazines are of particular importance to first time full time freshmen attending ranked private institutions In addition students who deem rankings as important are traditionally aged live on campus attend a school a significant distance from home and have a high level of financial status *U S NEWS ULTIMATE COLLEGE DIRECTORY 2004* MCGRATH ANNE (EDITOR),2003 *The Global Academic Rankings Game* Maria Yudkevich,Philip Altbach,Laura Rumbley,2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic

rankings Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia Chile China Germany Malaysia the Netherlands Poland Russia Turkey the United Kingdom and the United States The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts

Rankings and the Reshaping of Higher Education Ellen Hazelkorn,2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn s first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars
