## **Cyber Week Compare Customer Service:**

**2024 Holiday Customer Service Blueprint** Jelisaveta Sapardić, 2024-08-20 Did you know that customer service requests can increase by 65% during Black Friday and Cyber Monday compared to a typical day? This staggering surge can overwhelm even the most prepared customer support teams as they struggle to manage a flood of repetitive questions, keep response times low, and maintain high levels of customer satisfaction all at the same time. However, this surge also presents a critical opportunity to boost revenue and acquire new customers. With over 87% of consumers shopping during Black Friday and 61 million people globally purchasing from Shopify-powered brands, drawing from our experience supporting over 300,000 businesses worldwide, we understand the importance of a seamless customer experience, especially for ecommerce companies and SMBs. We've developed strategies that help businesses overcome customer service challenges during peak shopping times. In this ebook, we'll share practical tips and insights from industry experts to help you manage customer demands during these critical periods. Learn how to navigate and thrive during the busiest seasons with our proven advice.

**Modelling Accelerated Proficiency in Organisations** Dr Raman K Attri, 2022-05-31 This book presents a research thesis of a large scale study conducted with over 50 large organizations in 7 countries with 80 business leaders to understand how businesses speed up the proficiency of their employees to meet business challenges. The book describes a start to end research study that explored the concept of accelerated proficiency of employees in organizations. The book is organized into five chapters. The book introduces the concept of accelerated proficiency in a business context in light of reviews of four decades of classic studies. The research methodology to identify sources, recruit participants, and the mechanism to collect as well as analyze data have been explained in detail. The book reveals six business practices implemented by organizations across the board that seem to make a major impact in shortening the time to proficiency of employees. Important observations and findings have been discussed as implications in regards to how organizations orchestrated six business practices as an input output feedback system to reduce the time to proficiency of the workforce. The book briefly explains how these six practices were implemented through a set of twenty four strategies in various contexts. The concepts and findings discussed in this book contribute significantly to the body of knowledge on accelerated proficiency. In particular, the conceptual model and the framework developed in this study can be implemented across a range of contexts, business sectors, job types and settings to reduce the time to proficiency of the workforce.
