**Imagine the Life You'd Love to Live, Then Live It** Peg Conley,2014-11-17 Peg Conley has been an artist all her life but like many of us took a long detour into the working world where she was a corporate sales queen in Seattle with a lot of success and a happy busy family Art became the thing she did on vacations weekends and when she could carve time out of her busy life Something gnawed at her a nagging feeling that life might hold something else for her in the midst of it all Then came the big aha moment Peg heard a still small voice inside Imagine the life you want to live then live it It's that simple Her family encouraged Peg to pursue her passion Despite a great deal of fear Peg Conley did the thing she thought she could not do and dropped her big job big house and big life and moved to San Francisco to start a business based on her artisan stationery From a handful of handpainted cards calendars and posters her company Words Watercolors was born and has been inspiring people winning awards and raking in the sales ever since Peg's intention with her work is to inspire and her art and writing all speak to life's great truths and those aha moments for which we all need reminders What do you imagine your Ideal Life to be It may take some time for it to unveil itself You will need to have an idea of what it is you are looking to create Spend some time in contemplation For some that means a quiet meditation where images might come to you For others you might write about something you've always had a longing to create or a dream that seemed far away and not attainable yet it doesn't go away The dream nudges at you asking you to pay attention Where words work for some people pictures work for others You may want to create a vision board Gather your old magazines and begin ripping out the pictures that appeal to you or draw your own images Your Ideal Life will come alive via the images that resonate with you Don't hesitate to pick up a pen pencil or crayons even and fill the blank pages with doodles of any kind Do you still think of becoming a nurse Don't be disheartened go online and research classes you can take at your local college to start the process As someone once said if you don't start now 5 years from now you still will be where you are but if you begin with baby steps in 5 years you could be in a completely different place So ask yourself the question What does the life I long to live look like Imagine it Draw it write it collage it and just plain dream it Believe you can have it and then go about creating it as you take daily steps towards becoming an enhanced version of yourself All successful people are big dreamers They imagine what their future could be ideal in every respect and then they work every day toward their distant vision that goal or purpose

Escaping the Scroll Trap and Focus on Your Goal, 2025-06-20 It didn't happen all at once There was no loud bang no breaking news no global announcement that we had officially surrendered our attention spans Instead the scroll culture crept in silently disguised as convenience connection and entertainment What began as a simple way to stay in touch with friends and family slowly became a digital world more vivid and more addictive than the one outside our screens We scrolled to see what our college roommate was doing what the latest news headlines were what a stranger across the globe had eaten for breakfast Then we scrolled more not because we needed to but because we didn't know how to stop Why This Book Matters Now We are living through an attention crisis For the first time in history we're constantly connected but deeply disconnected from ourselves We reach for our phones more than 80 times a day The average person spends over 7 hours a day on screens and most of that time is not meaningful or even memorable We scroll through curated feeds highlight reels and viral noise but often feel more anxious distracted and dissatisfied than ever before

And it's not just adults. Teenagers are spending more time on social media than in face to face conversations. Children are now growing up measuring their worth in likes before they even understand who they are. Friendships are fading into comment threads. Relationships are breaking down over blue ticks and reply delays. Families sit together in the same room each lost in their own digital world.

**Career Break Compass** Laura Nguyen, 2024-11-12. Reignite your career passion with Career Break Compass, a strategic guide to reclaiming work life balance through meaningful breaks complete with actionable plans and a supportive community. For those grappling with burnout and the uncertainties of recovery, this compass emerges as an indispensable guide offering strategic insights that navigate the journey toward renewal and a purpose driven future. Dr. Tamara Beckford, Burnout Prevention Expert and CEO of UR Caring Docs, Career Break Compass is for mid to high level executives who are high achievers and goal oriented decision makers finding themselves losing momentum and drive from overwork, lack of work life balance, emotional exhaustion and more. By telling her own story, the author shows how after recognizing that she was burned out in her career, she decided to take a three month break. Rather than just taking the time off, she planned that time, breaking it into four sections: Play, Pause, Plan, and Pursue. She felt it was essential first to take the time to disengage from work and spend time with her family in Play. For Pause, she spent time on her own to slow down, meditate, and work on herself. That got her ready to Plan, where she investigated her core values and how she could incorporate those into her career. Pursue prepared her to re-enter the workforce. By interviewing others who have taken career breaks and sharing their stories, Laura gives readers a wide variety of options to take their own breaks, short or long. There are even a series of bite sized break ideas for those who need a pause but don't have the time or money to take off for three months. Each chapter ends with questions for the reader that will help them thoughtfully plan a break that works for them. A QR code at the back of the book will lead readers to templates and worksheets online, plus a developing community of like minded people. By the end of the book, readers will have the tools they need to plan and execute a career break and then return either to their existing job or maybe something completely new, refreshed, motivated and ready to work with a plan that will keep them from falling into old burnout traps.
