The Catholic Church Hans Küng,2011-12-29 A landmark short history of the Catholic Church by the world's greatest living Christian theologian and historian Hans Kung describes the history of the Roman Catholic Church from its origins in St Paul's Rome through the disputes of the medieval era to the modern world He examines the historic tension in the Church between pluralism and exclusivity how the role of the Pope has changed the motivations of the great reforming pontiffs the evolving functions of the bishops and cardinals the church's enthusiasm for missionary activity the origins of the Marian cult and how the shock waves of the Reformation and Counter Reformation can still be felt today The book concludes with a searching assessment of how the Catholic faith confronts the immense challenges from science from the empowerment of women from those seeking reform of the Church's strictures against abortion and contraception in the new millennium The sweep is vast and the tale told with pace and passion Financial Times
