Disarmament Document Series ,1965 **The Good Ancestor: A Radical Prescription for Long-Term Thinking**

Roman Krznaric,2021-08-31 From leading philosopher Roman Krznaric author of History for Tomorrow an urgent call to save ourselves and our planet by getting to the root of the current crisis society s extreme short sightedness As heard on NPR s TED Radio Hour When Jonas Salk developed the polio vaccine he refused to patent it forgoing profit so that more lives could be saved His radical generosity to future generations should inspire us but leading philosopher Roman Krznaric sees the opposite happening Our short term exploitative mindsets have colonized the future leaving an inexcusable chasm between the haves and have nots and mounting existential threats that have brought our species to the precipice of disaster Yet Krznaric sees reason to hope The urgent struggle for intergenerational justice calls for hugely ambitious solutions from rewiring our growth at all costs economy to giving voters of future generations a voice in our democracies But at the heart of all these changes is one we can enact within ourselves We must trade shortsightedness for long term thinking In *The Good Ancestor* Krznaric reveals six practical ways we can retrain our brains to think of the long view and to shift our allegiance from this generation to all humanity to save our planet and our future
