African Textiles Duncan Clarke, Miriam Ali de Unzaga, 2015 This book offers a fascinating journey through the history and culture of textiles in Africa drawn from the private collection of Karun Thakar widely considered to be one of the best in the world. This collection of rare and exquisite textiles from Central, Northern and West Africa includes weavings from Ghana, Nigeria and the Ivory Coast, embroideries, veils and haiks from Morocco and Tunisia, and raffia fabrics from Congo. Assembled over thirty years, the collection comprises over two hundred examples, many of which have featured in significant museum exhibitions. With contributions from leading scholars and curators, including from the Victoria and Albert Museum and the Metropolitan Museum of Art, this book examines the historical significance of Indian printed cottons and their influence on global trade from the 14th century onward and includes examples found in Sri Lanka, Japan and throughout Europe. Overshot Susan Falls, Jessica R. Smith, 2020-03-01 Woven coverlets have appeared in several guises within the history of folk textiles. Created on four-harness looms, coverlets made in the nineteenth century American South typically featured colored wool and cotton threads woven into striking geometric patterns. Although they are not as well known as other textiles and domestic objects, overshot coverlets were and continue to be significant examples of material culture that require tremendous skill and creativity to produce. They also express currents of conformity and dissent. In addition to being pleasing to the eye and hand, overshot coverlets have advanced a variety of social and political ends. At times exhibited in slave quarters along the seaboard in Georgia and South Carolina in association with plantation properties, they also appear in piedmont areas attached to the antebellum yeomanry in the context of nationalist craft revivals and in white box contemporary art. With *Overshot*, Susan Falls and Jessica R. Smith analyze what we can learn by examining the exhibition and interpretation of these materials within American public history. By showing how geometric overshot coverlets can be understood in relationship to the global economy and within politicized cultural movements, Falls and Smith demonstrate how these erstwhile domestic utilitarian objects explode the art/craft dichotomy and belong to a rich narrative of historical art forms and tell us far more about American culture today than simply representing a
