Nice Concurrent Urbanities Designing Infrastructures Inclusion:

Concurrent Urbanities Miodrag Mitrasinovic, 2015 **Concurrent Urbanities** Miodrag Mitrasinovic, 2015-10-14 Design has been employed as an agent of social and political change and a catalyst for spatial and urban transformations in cities across the world *Concurrent Urbanities* argues for the centrality of designing in the conceptualization and production of inclusive and participatory urban space by bringing together civic and urban activists urbanists designers and architects committed to exploring designing as a socio spatial praxis concerned with the reorganization of urban socio economic systems and relations of power The blend of first hand experiences and reflections of the urban practitioners featured reframes design practice beyond the design of physical objects and public amenities to the design of social protocols processes and infrastructures for radically reframing practices of socio spatial inclusion on the ground Through illustrated examples this book features the work of Stalker and Stealth who employ design to negotiate new social contracts Teddy Cruz s design of urban political and economic processes models of urban pedagogy by the Center for Urban Pedagogy Cohabitation Strategies work on designing urban social cooperatives and others *Concurrent Urbanities* presents a compendium of the emerging models of design driven urban practice that offers important new insights to professional urban practitioners as well as to students of urbanism architecture urban design and urban and spatial planning *Public Space Reader* Miodrag Mitrašinić, Vikas Mehta, 2021-03-30 Recent global appropriations of public spaces through urban activism public uprising and political protest have brought back democratic values beliefs and practices that have been historically associated with cities Given the aggressive commodification of public resources public space is critically important due to its capacity to enable forms of public discourse and social practice which are fundamental for the well being of democratic societies *Public Space Reader* brings together public space scholarship by a cross disciplinary group of academics and specialists whose essays consider fundamental questions What is public space and how does it manifest larger cultural social and political processes How are public spaces designed socially and materially produced and managed How does this impact the nature and character of public experience What roles does it play in the struggles for the just city and the Right to The City What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs desires and aspirations of individuals and communities alike What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work And what are the futures of public space in the face of global pandemics such as COVID 19 The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space **The Routledge Companion to Design Research** Paul A. Rodgers, Joyce Yee, 2023-07-31 This new edition of *The Routledge Companion to Design Research* offers an updated comprehensive examination of design research celebrating a plurality of voices and range of conceptual methodological technological and theoretical approaches evident in contemporary design research This volume comprises thirty eight

original and high quality design research chapters from contributors around the world with offerings from the vast array of disciplines in and around modern design praxis including areas such as industrial and product design visual communication interaction design fashion design service design engineering and architecture The Companion is divided into four distinct sections with chapters that examine the nature and process of design research the purpose of design research and how one might embark on design research They also explore how leading design researchers conduct their design research through formulating and asking questions in novel ways and the creative methods and tools they use to collect and analyse data The Companion also includes a number of case studies that illustrate how one might best communicate and disseminate design research through contributions that offer techniques for writing and publicising research The Routledge Companion to Design Research has a wide appeal to researchers and educators in design and design related disciplines such as engineering business marketing and computing and will make an invaluable contribution to state of the art design research at postgraduate doctoral and post doctoral levels and teaching across a wide range of different disciplines

Universities as Drivers of Social Innovation Davide Fassi, Paolo Landoni, Francesca Piredda, Pierluigi Salvadeo, 2019-11-15 This book reviews the social role of universities in their local urban contexts and describes a number of initiatives of major interest in terms of the impact achieved the range of stakeholders involved and the significance of the university campus and teachers as agents of change It is divided into three parts the first of which draws on the international literature to provide theoretical background regarding the role of universities and university campuses as drivers of and magnets for social innovation The second and third parts each focus on four main themes of interest in the contemporary design setting urban community gardens social TV stations mobile pavilions and economic sustainability models After a theoretical overview that also illustrates international best practices it then focuses on the specific context of Milan based on the pilot project recently conducted by the Politecnico di Milano CampUS incubation and implementation of social practices which won the 25th ADI Compasso d Oro Award 2018 in the social design category The book is of interest to academics students those working at public institutions and city policymakers

Design and the Social Imagination Matthew DelSesto, 2022-11-17 Matthew DelSesto provides a compelling blueprint for a design practice that enables us to address the social political and environmental challenges of today By combining the creative action oriented sensibility of design with the reflective analytical capacities of the social sciences DelSesto offers models ideas and strategies for shaping the future Drawing on the work of C Wright Mills Patrick Geddes Jane Addams and W E B Du Bois and exploring professional practices and discourses in a wide range of design fields this book shows us how design and the social sciences can interact in a more productive way

The Emerging Public Realm of the Greater Bay Area Miodrag Mitrašinić, Timothy Jachna, 2021-07-29 Through illustrated case studies and conceptual re framings this volume showcases ongoing transformations in public space and its relationship to the public realm more broadly in the world s most populous urban megaregion the Greater Bay Area of

southeastern China projected to reach eighty million inhabitants by the year 2025 This book assembles diverse approaches to interrogating the forms of public space and the public realm that are emerging in the context of this region's rapid urban development in the last forty years bringing together authors from urbanism architecture planning sociology anthropology and politics to examine innovative ways of framing and conceptualizing public space in of the Greater Bay Area The blend of authors first hand practical experiences has created a unique cross disciplinary book that employs public space to frame issues of planning political control social inclusion participation learning education and appropriation in the production of everyday urbanism In the context of the Greater Bay Area such spaces and practices also present opportunities for reconfiguring design driven urban practice beyond traditional interventions manifested by the design of physical objects and public amenities to the design of new social protocols processes infrastructures and capabilities This is a captivating new dimension of urbanism and critical urban practice and will be of interest to academics students and practitioners interested in urbanization in China

Architecture and the Public World Kenneth Frampton, 2024-05-02 Architecture and the Public World brings together key writings by Kenneth Frampton the eminent architectural historian and critic from the 1980s to the present Articles are grouped into thematic sections representing abiding concerns of Frampton's criticism history and critical theory modes of criticism the vicissitudes of urban form and tactility tectonics and resistance The volume also includes a new interview with Frampton and an essay by Clive Dilnot exploring the relevance of Frampton's thought for design history and criticism The anthology represents Frampton's abiding concern for labor and the political dimensions of architecture including his development of the concept of critical regionalism but in featuring writings from across the range and breadth of Frampton's career enables a broader understanding of his work demonstrating the potential for architectural interpretation and analysis to function as a mode of cultural criticism

Co-designing Infrastructures Sarah Bell, Charlotte Johnson, Kat Austen, Gemma Moore, Tse-Hui Teh, 2023 Co designing Infrastructures tells the story of a research programme designed to bring the power of engineering and technology into the hands of grassroots community groups to create bottom up solutions to global crises Four projects in London are described in detail exemplifying community collaboration with engineers designers and scientists to enact urban change The projects co designed solutions to air pollution housing the water energy food nexus and water management Rich case study accounts are underpinned by theories of participation environmental politics and socio technical systems The projects at the heart of the book are grounded in specific settings facing challenges familiar to urban communities throughout the world This place based approach to infrastructure is of international relevance as a foundation for urban resilience and sustainability The authors document the tools used to deliver this work providing guidance for others who are working to deliver local technical solutions to complex social and environmental problems around the world This is a book for engineers designers community organisers and researchers Co authored by researchers it includes voices of community collaborators their experiences frustrations and

aspirations It explores useful theories about infrastructure engineering and resilience from international academic research and situates it in community based co design experience to explain why bottom up approaches are needed and how they might succeed Inclusive Urban Design Elizabeth Burton,Lynne Mitchell,2006 This is the first book to address the design needs of older people and the disabled in the general outdoor built environment It provides information on design principles essential to built environment professionals urban designers planners and landscape architects who want to provide for all users of urban space and who wish to achieve true sustainability in their designs BOOK JACKET
