Nice Rethinking American Emancipation Legacies Cambridge:

Reconsidering Southern Labor History Matthew Hild, Keri Leigh Merritt, 2020-11-03 The broad chronological sweep and comprehensive nature of *Reconsidering Southern Labor History* set this volume apart from any other collection on the topic in the past forty years Presenting the latest trends in the study of the working class South by a new generation of scholars this volume is a surprising revelation of the historical forces behind the labor inequalities inherent today United States Reconstruction across the Americas William A. Link, 2019-06-03 The book explores how emancipation nationhood and nationalism and the spread of market capitalism all central to U S Reconstruction were interwoven with patterns of post Civil War global political social and economic developments **Reconstruction and the Arc of Racial (in)Justice** Julian Maxwell Hayter, George R. Goethals, 2018-01-26 This collection of original essays and commentary considers not merely how history has shaped the continuing struggle for racial equality but also how backlash and resistance to racial reforms continue to dictate the state of race in America Informed by a broad historical perspective this book focuses primarily on the promise of Reconstruction and the long demise of that promise It traces the history of struggles for racial justice from the post US Civil War Reconstruction through the Jim Crow era the Civil Rights and Voting Rights decades of the 1950s and 1960s to the present day *The Limits of Loyalty* Jarret Ruminski, 2017-09-15 Jarret Ruminski examines ordinary lives in Confederate controlled Mississippi to show how military occupation and the ravages of war tested the meaning of loyalty during America's greatest rift The extent of southern loyalty to the Confederate States of America has remained a subject of historical contention that has resulted in two conflicting conclusions one southern patriotism was either strong enough to carry the Confederacy to the brink of victory or two it was so weak that the Confederacy was doomed to crumble from internal discord Mississippi the home state of Confederate President Jefferson Davis should have been a hotbed of Confederate patriotism The reality was much more complicated Ruminski breaks the weak strong loyalty impasse by looking at how people from different backgrounds women and men white and black enslaved and free rich and poor negotiated the shifting contours of loyalty in a state where Union occupation turned everyday activities into potential tests of patriotism While the Confederate government demanded total national loyalty from its citizenry this study focuses on wartime activities such as swearing the Union oath illegally trading with the Union army and deserting from the Confederate army to show how Mississippians acted on multiple loyalties to self family and nation Ruminski also probes the relationship between race and loyalty to indicate how an internal war between slaves and slaveholders defined Mississippi's social development well into the twentieth century *Rethinking American Emancipation* William A. Link, James J. Broomall, 2015-11-12 On January 1 1863 Abraham Lincoln announced the Emancipation Proclamation an event that soon became a bold statement of presidential power a dramatic shift in the rationale for fighting the Civil War and a promise of future freedom for four million enslaved Americans But the document marked only a beginning freedom's future was anything but certain Thereafter the significance of both the Proclamation and

of emancipation assumed new and diverse meanings as African Americans explored freedom and the nation attempted to rebuild itself Despite the sweeping power of Lincoln s Proclamation struggle rather than freedom defined emancipation s broader legacy The nine essays in this volume unpack the long history and varied meanings of the emancipation of American slaves Together the contributions argue that 1863 did not mark an end point or a mission accomplished in black freedom rather it initiated the beginning of an ongoing contested process
