[Mobility, Data and Learner Agency in Networked Learning](#) Nina Bonderup Dohn, Petar Jandrić, Thomas Ryberg, Maarten de Laat, 2020-03-26 The chapters in this book are based on selected peer reviewed research papers presented at the 11th biennial Networked Learning Conference NLC 2018 held in Zagreb and were chosen as exemplars of cutting edge research on networked learning. The chapters are organized into three main sections 1 Aspects of mobility for Networked Learning in a global world 2 Use and misuse of algorithms and learning analytics 3 Understanding and empowering learners. The three main sections are flanked by chapters which introduce and reflect on Networked Learning as epistemic practice. The concluding chapter draws out perspectives from the chapters and discusses emerging issues. The book focuses on the nature of learning and interactions as an important characteristic sought out by researchers and practitioners in this field.

Makeup in the World of Beauty Vlogging Clare Douglass Little, 2020-10-14 This collection studies beauty vlogging as a phenomenon operating at the intersection of celebrity culture digital communities and the cosmetics industry. Exploring subjects ranging from race and gender to disability and religion the chapters examine how the genre has impacted social media landscapes and gender expression. The contributors analyze how beauty vlogging makes community and economic success seem accessible for viewers as well as how the beauty vlog itself can function as a platform for enacting and inspiring social commentary and change. Makeup in the World of Beauty Vlogging studies the cultural phenomenon of the beauty vlog as a space where audiences and vloggers find a voice and a means of personal expression via the potentially subversive power of makeup and social media.

The Case for Good Jobs Zeynep Ton, 2023-06-06
Named one of the Best Business Books of 2023 by the Financial Times Thinkers50 2023 Winner Talent Award From MIT professor and pre eminent voice on Good Jobs comes a leadership guide for choosing excellence and providing good jobs that offer a living wage, dignity and opportunities for growth. From healthcare facilities to call centers, fulfillment centers to factories and restaurants to retail stores, companies are struggling to find or keep workers because the jobs they offer are low paying, stressful and provide little chance for growth and success. Workers want good jobs and many leaders want to provide them. But they don't think they can offer higher pay and more motivating work without hurting the bottom line. Most business leaders want to win with customers but their companies are hobbled by a host of service and operational problems largely driven by high employee turnover. Turnover that's partly driven by low pay. It is indeed a vicious cycle and Zeynep Ton is here to show you the way out why good jobs combined with strong operations lead to higher productivity and increased competitiveness for the business. And why more than ever in a world with tight labor markets failing to provide good jobs will catch up with you and threaten your business. As the leading scholar on good jobs and president of the Good Jobs Institute, Ton has helped executives at many companies implement a good jobs system. With expertise drawn from spending time on the front lines with workers and their managers, she knows what's keeping most companies mired in mediocrity and how implementing a good jobs system makes them more competitive, more resilient and more likely to attract and retain loyal customers and dedicated employees. Practical, prescriptive and often provocative, *The Case for Good Jobs* is essential reading for company leaders who want to who need to choose excellence.

Women in Historical and Archaeological Video Games Jane Draycott, 2022-06-06
This volume focuses on the depiction of women in video games set in historical periods or archaeological contexts. It explores the tension between historical and archaeological accuracy and authenticity, examines portrayals of women in historical periods or archaeological contexts, portrayals of female historians and archaeologists, and portrayals of women in fantastical historical and archaeological contexts. It includes both triple A and independent video games incorporating genres such as turn based strategy, action, adventure, survival, horror and a variety of different types of role playing games. Its chronological and geographical scope ranges from late third century BCE China to mid first century BCE Egypt to Pictish and Viking Europe to Medieval Germany to twentieth century Taiwan and into the contemporary world, but it also ventures beyond our universe and into the fantasy realm of Hyrule and the science fiction solar system of the Nebula.
