**Mental Health: Psycho-Social Perspectives (Volume 8: Mental Health at Workplace)** Anubhuti Dubey, Aradhana Shukla, 2026-01-01 It has been observed that most of the adult population around the globe is working in any form of organised labour whether physical or cognitive. As every person wants to be fit and healthy in such a way people working in all organisations want to maintain their psycho physical health. Although many health organisations like World Health Organisation WHO have provided comprehensive mental health action plans and they were followed by organisations but after COVID 19 the entire scenario was changed and people working there have felt a lot of constraints pertaining to their psychological and physical health status. It has caused dissatisfaction from the organizational climate and degradation in work skills is being watched regularly. In order to improve the organisational climate and increase the mental health status of the people working there this volume is planned. This is the eighth volume of our series Mental Health Psychosocial Perspective Twenty Five thought provoking research papers are included here and they open the various doors of causes and cures related to mental health. We are quite sure that this volume will help the researchers, teachers, mental health professionals and the people who want to increase their mental health in work place.
