Guesser, 2022-11-07 Current semantic fieldwork research has shown that the study of modality cannot be conducted via translation alone yet much of what we know about modal expressions across the world's language is still translation based This book aims to facilitate the study of modality across more diverse languages and a wider participant base by explaining and illustrating a nuanced set of methods including storyboards questionnaires corpora research experimental tasks as well as a discussion of practical semantic fieldwork techniques The methodological protocols tested and employed by the authors on underdescribed languages spanning seven different language families are intended to be applicable as cross linguistic tools while also indicating the successes and challenges of their contributions Expanding the study of modality to a wider set of underdescribed languages will undoubtedly bring new insights into our theoretical understanding of modality and deepen our understanding of a cross linguistic typology of modal expressions    Iroro ,1991    *Mobile Communication in Asian Society and Culture* Ming Xie, Chin-Chung Chao, 2023-09-27 Xie and Chao present a collection of research on mobile communication in Asian communities and countries such as Bangladesh China India Japan and South Korea With chapters written by scholars from diverse cultural and institutional backgrounds this book provides both localized and comparative perspectives on mobile communication research Exploring the way mobile apps are used in daily life in Asian countries Xie Chao and their contributors analyze how mobile apps improve lives help people build relationships sustain communities and change society for the better They look at areas including the role of mobile apps in public service delivery and access family communication cultural norms and identities organizational communication and intercultural communication The investigation of these topics elevates the understanding of the cultural familial interpersonal organizational and intercultural

consequences of mobile communication in a global context. Through examining mobile apps use in regard to scale, scope, depth, complexity and distinctiveness within the Asian context, this book furthers the research agenda of mobile communication and enriches our understanding of current practice and future direction of mobile communication. This book serves as a useful reference for scholars and students interested to learn more of the development and application of mobile communication from a global and comparative perspective.

undertakes an ambitious historical analysis of anthropological scholarship about Omaha kinship systems. His groundbreaking work offers a critique of this established scholarship including the work of Levi Strauss, Dorsey and Fletcher. In comparing the primary and secondary accounts of Omaha descent, relationship and naming systems, Barnes reveals the dissonance between the reality of Omaha society and the scholarship that has formed around it. Not only does he put forth a new and more realistic interpretation of Omaha sociology specifically, but in so doing he provides a reinterpretation of an aspect of anthropological theory. This edition includes a new introduction by Raymond J. DeMallie.
