**REAGAN** Kent Strobl,2025-06-29 There are many Ronald Reagan biographies and novels pertaining to the life and administration of the former president However there are very few if any that look at a handful of his positions and policies while relating them to the year 2024 almost four decades since former President Reagan was in office Just like how Reagan himself would do while in office analogies will be made that includes the positions actions and wisdom of other former presidents including Abraham Lincoln George Washington Thomas Jefferson James Madison Dwight D Eisenhower John F Kennedy Franklin Delano Roosevelt Theodore Roosevelt and Calvin Coolidge Not only will the reader explore how Reagan dealt with domestic and foreign affairs including tax reform welfare government spending civil rights dealing with the Soviet Union and Middle East as well as other areas of the world The reader will also see just how similar the world is to the 1980s and how solutions then can be used now along with new ideas that build off of what worked for The Gipper Along the way the reader will see how a private citizen that can be considered as Gen Z found his way into politics after not really being interested in it in the first 25 years of his life demonstrating how if you do not do the research on your own you can fall victim to what the mainstream pundits are sharing The Times Index, January -December 2012 ,2012 **Delineating**

**The Second Estate** Ray D. Madoff, 2025-10-21 A revelatory book that lifts the curtain on America s most consequential public deception how the rich get richer using tools the government gave them Amid conflicting narratives about the drivers of wealth and inequality in the United States one constant hovers in the background the US tax

code No political force has been more consequential or more utterly opaque than the 7 000 page document that details who pays what in American society and government Most of us have a sense that it s an unfair system But does anyone know exactly how it s unfair Legal scholar Ray D Madoff knows In *The Second Estate* she offers an unprecedented look behind the scenes of America s byzantine system of taxation laying bare not only its capacity to consolidate wealth but also the mechanisms by which it has created two fundamentally separate American societies the working Americans who pay and the ultra rich who benefit This is not a story of offshore accounts or secret tax havens In *The Second Estate* Madoff shows that the US system itself has over time been stripped and reconstituted such that it now offers a series of secret paths hidden in plain sight for wealthy people in the know to avoid taxation altogether Through the strategic avoidance of traditional income leveraging of investments and debt and exploitation of rules designed to promote charitable giving America s wealthy do more than just pay less than their share they remove themselves from the tax system entirely Wealth becomes its own sovereign state and the living is surprisingly and maddeningly cheap      *The House Magazine* ,2009      *O'Neil Database* ,2009      **The New York Times Index** ,2008
