**Urban Mobility** Shauna Brail, Betsy Donald, 2024-08-30 Urban Mobility sheds light on mobility in twenty first century Canadian cities. The book explores the profound changes associated with technological innovation pandemic induced impacts on travel behaviour and the urgent need for mobility to respond meaningfully to the climate crisis. Featuring contributions from leading Canadian and American scholars and researchers this edited collection traverses disciplines including geography engineering management policy studies political science and urban planning. Chapters illuminate novel research findings related to a variety of modes of mobility including public transit e scooters bike sharing ride hailing and autonomous vehicles. Contributors draw out the connections between urban challenges technological change societal need and governance mechanisms. The collection demonstrates why the smart phone COVID 19 and climate present a crucial lens through which we can understand the present and future of urban mobility. The way we move in cities has been disrupted and altered because of technological innovation the lingering impacts of COVID 19 and efforts to reduce transport related emissions. Urban Mobility concludes that the path forward requires good public policy from all levels of government working in partnership with the private sector and non profits to direct and address the best urban mobility framework for Canadian cities.

*Wolt Cooperation Strategy with its Couriers before and after the Covid 19 Pandemic* Ekundayo Bello, 2024-05-15 Master s Thesis from the year 2024 in the subject Business economics Business Management Corporate Governance grade 2 course Master in International Business language English abstract The objective of this study is to provide recommendations on how to improve the cooperation between Wolt and its courier partners during and after the Covid 19 crisis based on the views and opinions expressed by the courier partners in Tallinn. The views and opinions of Wolt s courier partners on actions and strategies implemented by Wolt during the pandemic and preferred relationship status will be used to make suggestions on how to improve the cooperation between the two parties. According to Statista an online database food delivery platforms along with other service sector businesses in Estonia contributed significantly to GDP over 61% from 2009 to 2019. Moreover the global turnover of 151 526 million in 2021 was forecast in the sector Online Food Delivery with China expected to generate the highest turnover and the estimated turnover for Estonia in 2021 is 20 million Statista 2020 1. Wolt one of the largest e residency companies in Estonia contributes significantly to the Estonian economy by paying social contributions on behalf of its individual courier partners and paying business courier partners a higher commission to compensate for their tax expenses. By the last quarter of 2020 Wolt has paid up to EUR 300 000 in taxes for its courier partners in Estonia. Therefore the continued survival and profitability of online food delivery platforms in Estonia is important for the well being of citizens. As the hardship caused by the pandemic continues to transform almost all aspects of human life worldwide the role of online food delivery companies in providing consumers with prepared food cannot be overstated.
