Football Is a Numbers Game Matthew Collier, 2023-10-03 In the 1980s Neil Hornsby was one of very few National Football League fans in England. Never one to do anything casually, he began keeping hand-written score sheets of every game using his own tracking system. Soon he enlisted some fellow British super fans in his mission to take football information an extra layer deeper. This was the beginning of Pro Football Focus, an analytics company that now supplies data to all 32 NFL teams and every major broadcasting corporation. PFF player grades appear on the screen during Sunday Night Football broadcasts, and PFF's pioneering research and analysis informs discussions at the highest level, from coaching to drafting to game planning and player evaluation. In *Football Is a Numbers Game*, Matthew Collier chronicles this improbable start-up tale with unprecedented access, exploring the company's origin as a band of obsessive outsiders, its pivotal acquisition by Cris Collinsworth, and its role in the proliferation of data in the NFL and professional sports. Featuring a cast of memorable characters, this is a portrait of an unlikely business success as well as a behind-the-scenes look at the forces guiding modern NFL teams as they search for a competitive edge. Sponsorship John A. Fortunato, 2013-08-03 This book focuses on how the sponsorship of sports works: the costs, the goals, evaluation, and selection of the property a sponsor chooses; how to activate a sponsorship; how to create a brand association; public relations and brand image possibilities. Anything is possible in a sponsorship; it is simply what the sponsor and the property can agree to during their negotiations. There is, for example, the opportunity for product category exclusivity: no competing brand at a particular location. With the audience being harder to reach because of technology, sponsorship continues to be a viable way to obtain brand exposure and better connect a brand with a consumer. With global sponsorship spending totaling more than \$1 billion, it is clear that many companies see this as an important promotional communication strategy.
