Kristi Griffin,2021-03-15 Working online or remotely has become a necessity for many this year However this is just the start  
of a larger trend It is predicted that by 2027 the majority of the US workforce will be working remotely online The office  
work lifestyle is familiar to most people get dressed in your company clothes commute to work work in a room with a few  
other people take scheduled breaks et cetera But remote workers at online jobs don t encounter most of those situations  
They don t need to get dressed in company attire or commute to work But it can be difficult for online workers to navigate  
working away from the office Best practices are not as well defined because online work at least in its current form is still  
relatively new so it can be difficult to know how you should act when working from home There is no single formula for how  
to become an efficient online worker Everyone will work at different times and have different tips on how to make the most of  
their time Indeed one of the major benefits of remote work is the flexibility it affords Working from home means that you can  
adjust your schedule to suit your commitments and your timetable as it is in your hands now However this means that you  
need to learn what works best for you when managing your priorities and time and everyone is slightly different That said  
there are a few common practices you can expect to use as a remote worker In this guide we ve compiled the best practices  
for online remote workers ranging from how to participate in meetings to how you can find an online job as a remote worker  
If you re working from home or aspire to do so this guide is for you
