**A New Approach to Reading Videogames as Story** Thomas Rowland, 2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames toy games storybook games and ludonarratives This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative This book explores the idea of storyplaying in connection with new ideas on intromersive movement game mechanics and sacred play to develop a typology of videogames that will enable critics educators and theorists to situate videogames within a broad continuum of literary history Building on this foundation this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism the emerging art world of game mediated photography the various economies constructed around videogames the potential of games to serve as third places and some suggestions for videogames in the classroom These ideas are contextualized by the author s argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces with dedicated and important meditation which given today s decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises

Digital China: Metaverses For Business Ashley Dudarenok, 2023-03-20 While the hype surrounding the metaverse has waned its importance from a tech perspective hasn t This book will help all those who have wondered what a metaverse is what it s for how much it s worth which companies are creating it which countries are ahead of the game and how businesses are using metaverses and Web3 This book is for brands that want to understand the next iteration of the internet how to use it now and in the future to connect with customers and how to future proof your business There are different perceptions of and approaches to the metaverse and

Web3 in different countries This book helps you to understand those differences and the impact they may have on your company

QUOTES FROM THE BOOK The metaverse is the next iteration of the internet we have been building for the last 40 years but in a 3D realm vs the text picture and video web we have today When it arrives in the next 5 10 years it will encompass all facets of our lives from school to work to play and everything in between And from now to then there will be many rocky roads as the world and China figure out how to actually build such a solution and all the rules needed to properly operate it Alvin Wang Graylin China President Global VP of Corporate Development at HTC Some people believe there should be one metaverse where many virtual worlds exist inside that one mega metaverse But this is the most idealized version of how society or the internet operates Judging by what tech companies are doing at this early stage it s clear that they want to keep their walled gardens up for as long as they can Nina Xiang Author of Parallel Metaverses New revenue streams and business models present a whole new level of possibility for brands to reach their customers and fans It s not just about monetary conversions It s another touchpoint and becomes a layer of experiential reimaged and immersive experience to further enhance a brand s story Co creation and community activation will play a significant role in delivering to the community Olivia Lee Founder of Livvium Web3 Strategist and Digital Fashion Collector
