Nameless Persons Martha T. Zingo, Kevin E. Early, 1994-08-09 This study examines the legal discrimination suffered in the United States by children born out of wedlock The authors analyze the Supreme Court's equal protection birth status decisions from 1968 to 1992 and in a case by case analysis trace the development of the Court's rulings examine the pattern of equal protection tests utilized and evaluate the consistency of the Court's position In addition the work examines the related discrimination suffered by the families of non marital children especially single parents and alternative family units and concludes that it is impossible to gain full equality for children born out of wedlock unless equality is also gained for their family unit Toward these ends the authors suggest a feminist jurisprudence as a methodology for addressing the underlying issue at the crux of birth status distinctions

Nameless, Blameless Reproduction A. H.J a C H MD, 2013-09-21 When I get the call I just know Can I just answer barely awake and go back to sleep or do I need to be up in a flash Some of it is the intuition that comes with getting calls in the dead of the night over many years It's the languid pace of a person's voice with a bothersome question the timid entry phrase I'm sorry to bother you with this Or it's the fear and panic in the voice of the person on the other end of the line the short demands with panting in between The phone rings at three a.m The caller says We need you in OR four NOW I don't bother to ask I just slam down the phone and I'm awake In an instant I'm in OR four I'm called to assist with a cesarean delivery In forty seconds the baby is delivered The other obstetrician and I close without saying much We close and inspect every layer in detail There's a steady flow to closing the patient's abdomen I'm a little tired but each step prompts another and before long we are at the skin Afterwards the doctor thanks me for helping because it can be hard to find help on a case You know given the mother's condition I just nod This doctor is known to take the moms with HIV Shortly after surgery when the mom dies leaving no verifiable next of kin for her newborn daughter the baby becomes an orphan Sensing an opportunity to do something in a situation far greater than herself the ob gyn engaged in her own battle with infertility and undiagnosed depression endeavors to adopt the little girl A gay man who lost his partner to HIV the ob gyn's brother connects her with an attorney specializing in adoption for non traditional families Desperate and driven the ob gyn fosters the infant and names her Hope The brother moves in to help welcome the new baby home Hope soon becomes ill giving the new mom and uncle what seems to be an insurmountable obstacle With not much to go on bunt the slimmest of chances the siblings move ever forward determined to see that the newest edition to their family lives In so doing they open up a healing process that just may save their own lives as well Intentionally refraining from naming her main characters JACH MD's debut explores this highly charged emotional terrain without labels In doing so she precludes the blame and judgment so often associated both socially and personally with issues like this and instead puts her laser focus on this transformative human journey and does so to stunning effect Transcending stereotypes and ascending to a higher plane of understanding and acceptance Nameless Blameless Reproduction is a miraculous tale of healing that is as spellbinding as

it is inspiring      *Commodified Bodies* Oliver Decker,2014-04-24 *Commodified Bodies* examines the social practice of organ transplantation and trafficking and scrutinises the increasingly neoliberal tendencies in the medical system It analyses phenomena such as the denomination of human body parts as raw materials and commodities or the arguments used by the proponents for a free market solution Moreover it argues that modern medicine is still linked with its religious roots The commodification of body parts is seen not as an imperialistic act of the market but as the end of a historical process as the notion of fetishism links the market with the body Marx s concept of commodity fetishism and Sigmund Freud s theory of the perverted use of objects are modified and adapted to the reconstruction of the joint beginnings of market and medicine

**Bible** Kristine Henriksen Garroway,Laura Quick,Hyun Chul Paul Kim,Jacqueline Vayntrub,John W. Martens,2024-10-17 What did violence against women and children mean for ancient audiences and how do modern audiences hear and process the meaning of violence in the texts of the Hebrew Bible The rape of Tamar the sacrifice of Jephthah s daughter babes ripped from the womb during war texts such as these are hardly fodder for Sunday School classes yet we are left with the reality that the Bible is a violent text full of war murder genocide and destruction often carried out at the behest of God The essays in this volume explore ways in which the Hebrew Bible uses and abuses women and children to make indelible points concerning the people of Israel the lived realities of the Israelite society and God s relationship to His people Where other works turn to the study of the violence itself or to the divine nature of violence this volume focuses in on the human component As a result these studies are reminders that women and children born out of trauma are at once vulnerable and valuable fragile and resilient      **Gender and Society** Arlene Tigar McLaren,1988      The Bookman ,1900      **Punch** Mark
