Brain Words Richard Gentry, Gene Ouellette, 2019 Gentry and Ouellette are cannonballing into the reading research pool they're making waves and these waves are moving the field of reading forward. From the foreword by Mark Weakland Super Spellers. The past two decades have brought giant leaps in our understanding of how the brain works. But these discoveries and all their exciting implications have yet to make their way into most classrooms. With the concise and readable BrainWords you will learn how children's brains develop as they become readers and discover ways you can take concrete steps to promote this critical developmental passage. Introducing their original research based framework of brain words dictionaries in the brain where students store and automatically access sounds, spellings and meanings the authors offer a wealth of information that will transform your thinking and practice. Up to date knowledge about reading and neurological circuitry including evidence that spelling is at the core of the reading brain. Tools to recognize what works what doesn't and why. Practical classroom activities for daily teaching and student assessment. Insights about what brain research tells us about whole language and phonics first movements. Deepened understanding of dyslexia through the enhanced lens of brain science. With the insights and strategies of BrainWords you can meet your students where they are and ensure that more of them read well think well and write well.

Academic Assessment and Intervention Steven Little, Angeleque Akin-Little, 2014-01-21 Serving students with academic deficiencies necessitates communication and collaboration among professionals from several disciplines. Academic Assessment and Intervention brings together divergent approaches in order to demonstrate that scientific evidence rather than biases or previous practice must determine assessment practices that are selected and used for particular purposes. Similar to a handbook in its comprehensive topical coverage this edited collection provides a contextual foundation for academic assessment and intervention. Describes both norm referenced and curriculum based assessment measurement in detail considers the implications of both of these assessments on ethnically diverse populations provides a clear link between assessment evidence based interventions and the RTI model and considers other important topics related to this area such as teacher behavior. Intended primarily for graduate level courses in education school psychology or child clinical psychology it will also be of interest to practicing professionals in these fields.
