that I've found very useful when making a batch of meals is to stick a label on the tubs and pots I keep them in. That way if I or one of my family members fancies a meal they can tell what's in the tub and when it was cooked. Meals can last 4-5 days, sometimes a little longer, but you need to be careful when you keep food in the refrigerator. Chicken and pork should be eaten up as quickly as possible and prawns are just as important too. You should not consume any chicken, pork, or prawn meals that have been in your refrigerator for any more than 5 days.

Freezing Meals When it comes to freezing meals, you have a real potential to save yourself a lot of time while also having a delicious meal to hand whenever you want one. You will need to make sure that you don't re-freeze meat or fish, including prawns that have previously been frozen. If you're not sure whether the ingredients you're using have been frozen, look at the packaging and product description for details.
