

A photograph of a person sitting at a wooden desk, working on a silver laptop. The laptop screen shows a video call interface with a person in a white shirt. The person on the desk is wearing a white t-shirt and is shaking hands with the person on the screen. A white mug is on the desk to the right. The background is dark.

Big

Data for Entrepreneurship and Sustainable Development Mohammed El Amine Abdelli, Wissem Ajili-Ben Youssef, Uğur Özgöker, Imen Ben Slimene, 2021-12-09 This book provides insight for researchers and decision makers on the application of data in the entrepreneurship and sustainable development sector. This book covers how Big Data for Industry 4.0 and entrepreneurship are effective in resolving business social and economic problems. The book discusses how entrepreneurs use Big Data to cut costs and minimize the waste of time. It offers how using Big Data can increase efficiency, enables the studying of competitors, can improve the pricing of products, increase sales and loyalty, and can ensure the right people are hired. The book presents how decision makers can make use of Big Data to resolve economic and social problems. Analyze the development of the economy and enhance the business climate. This book is for researchers, PhD students, and entrepreneurs and can also be of interest for transforming governments as well as businesses.

109 Ideas for Virtual Learning Judy Breck, 2006 109 IDEAS For Virtual Learning reveals the online knowledge venue that today's generation uses to learn while playing along at school to receive promotions, diplomas, and degrees. Calling that venue the virtual knowledge ecology, Judy Breck describes the networking of open content for learning online where knowledge is fresher, authoritative, and more compelling than at school. In this book, she provides her eyewitness account of the decade-long ongoing cascade of what is known by humankind from traditional resources into the Internet and explains the network mechanisms that interconnect the knowledge once it gets online. Breck says the resulting virtual knowledge ecology is causing students worldwide literally to study from the same virtual page. The author forewarns readers to expect emerging good news as the virtual knowledge ecology opens the way for a global golden age of education in which students learn more and teachers are respected professionals. Breck contends that literacy and learning follow naturally from the Internet interfacing what humankind knows. A boy or girl's hands can now hold a wireless device mirroring enlightenment from a new virtual venue into his or her mind.
