Handbook of Research on Inclusive and Accessible Education Maguvhe, Mbulaheni Obert, Mpya, Nwacoye Gladness, Sadiki, Marubini, Christinah, 2024-02-16 In the vast expanse of education a pervasive issue remains in the marginalization and lack of visibility of individuals with disabilities. Despite a strong desire for inclusivity recent research suggests that fewer than 5% of children with disabilities in 51 countries across sub Saharan Africa and South Asia are enrolled in primary school. This exclusion is not solely in enrollment numbers even those who manage to attend face learning environments ill equipped to adapt to their needs leading to further isolation. Girls with disabilities in particular endure heightened vulnerability to abuse reflecting a systemic failure to provide an environment that fosters equality, dignity and respect for all. The Handbook of Research on Inclusive and Accessible Education emerges as an inspiration for change providing a profound solution to the persistent issue of exclusion. The book encapsulates a collective effort to reimagine education. It advocates for a paradigm shift moving away from the confinement of special schools and towards inclusive mainstream settings. By addressing controversies, sharing successes and outlining prospects the book serves as a comprehensive guide for special school governing bodies, curriculum advisors, university lecturers and all stakeholders committed to reshaping education.
