

Objective Test Questions

Objective test questions for AQA.

- Bring a calculator.
- Draw sketch diagrams if needed.
- Aim to complete the 25 questions on the paper in 20-22 minutes.
- Expect approximately 8 questions on supply and demand; 8 on market failure and government intervention; 3-4 on elasticities and 5-7 on others (PPC, opportunity cost, factors of production etc).

Supported Multiple Choice Questions for EdExcel

- (i) There is one mark for selecting the correct option.
(ii) There are three marks for explanation.
(iii) It is possible to achieve 3 explanation marks even if the incorrect option has been selected.

One function of the price mechanism is to:

- A. Encourage businesses to exit a market as price of the goods produced increases.
B. Eliminate a surplus of a good by allowing the market price to fall.
C. Encourage government intervention to set production targets.
D. Maintain price stability.

Answer:

Explanation:

The correct answer is B (1 mark) but how best to get the full 3 marks for this question?

- **Define your terms** i.e. price mechanism (a mechanism to allocate scarce resources through changes in demand and supply (gets 1 mark).
- **Show a supply and demand diagram** depicting a surplus and how a fall in price leads to market equilibrium (contraction in supply and extension in demand) (1+1 marks).

General advice for supported MC questions (note: this refers to the EdExcel Board only)

- Define key terms throughout questions 1 to 8 on the EdExcel paper
- Consider the key concept or model that lies behind question
- Apply the information provided e.g. the effects of a tax or a subsidy on a market
- Annotate the diagrams provided in the question paper e.g. shading in or labelling areas of consumer & producer surplus, govt spending on a subsidy or agency spending on a buffer stock
- Be prepared to annotate tables of data too - complete them or make some simple calculations
- Be prepared to calculate percentages and show your workings, including a relevant formula
- Reject one or more of the options - remember to briefly explain why you have rejected them
- A suitable diagram can score two marks out of three - be prepared to offer simple diagrammatic analysis - this unit credits the application of demand and supply diagrams to economic issues
- Be prepared to offer economic analysis, for example, explaining how the free rider problem occurs in the provision of public goods. This will always be credited with marks.
- Offer real world examples as a way of applying theory - for example causes of geographical immobility, causes of imperfect information

Objective Test Questions:

Evaluation and Testing in Nursing Education Marilyn H. Oermann, Kathleen B. Gaberson, 1998 The volumes in this popular series provide nurse educators with material to help them plan, conduct, and evaluate their instructional goals and accomplishments. The series addresses a broad spectrum of teaching situations: classroom settings and clinical instruction, supervision. At some time or another, all teachers are faced with the need to measure and evaluate learning in a course, workshop, continuing education program, or educational setting. This book is a complete and very practical guide to student evaluation. Readers will learn how to apply the concepts of measurement, evaluation, and testing in nursing education, plan for classroom testing, create and administer tests, and analyze test results and assess clinical competencies.
