Intelligent Information and Database Systems Paweł Sitek, Marcin Pietranik, Marek Krótkiewicz, Chutimet Srinilta, 2020-03-03 This volume constitutes the refereed proceedings of the 12th Asian Conference on Intelligent Information and Database Systems ACIIDS 2020 held in Phuket Thailand in March 2020 The total of 50 full papers accepted for publication in these proceedings were carefully reviewed and selected from 180 submissions The papers are organized in the following topical sections advanced big data machine learning and data mining industry applications of intelligent methods and systems artificial intelligence optimization and databases in practical applications intelligent applications of internet of things recommendation and user centric applications of intelligent systems *Sustainable Manufacturing Innovations: Focus on New Energy Vehicles, Production Robots, and Software-Defined Manufacturing* Junying Min, Weimin Zhang, Jürgen Fleischer, Gisela Lanza, 2025-06-10 This book provides an in depth exploration of the latest advancements in sustainable manufacturing as presented at the International Conference on Sustainable Manufacturing The proceedings focus on three pivotal areas the production of new energy vehicles NEVs production robots and software defined manufacturing The section on NEVs delves into innovations in battery technologies lightweight materials eco friendly production processes and sustainable sourcing highlighting how these advancements reduce environmental impact and enhance efficiency The segment on production robots examines the integration of automation and robotics to boost productivity and sustainability emphasizing energy efficient systems collaborative robots cobots quality control and predictive maintenance The final part on software defined manufacturing explores the digital transformation of manufacturing processes discussing digital twins the Industrial Internet of Things IIoT artificial intelligence machine learning cloud manufacturing and cyber physical systems These technologies enable smarter more adaptive and sustainable manufacturing environments This comprehensive collection of research and practical applications is essential for academics industry professionals and policymakers committed to advancing sustainable manufacturing practices Advanced Materials, Mechanical and Structural Engineering Seung Hong, Junwon Seo, Kihoon Moon, 2016-04-14 In the last decades advanced materials and mechanics has become a hot topic in engineering Recent trends show that the application of nanotechnology and environmental science together with advanced materials and mechanics are playing an increasingly important role in engineering applications For catching up with this current trend this book **Advanced Mechatronics Solutions** Ryszard Jabłoński, Tomas Brezina, 2015-11-02 Focusing on the most rapidly changing areas of mechatronics this book discusses signals and system control mechatronic products metrology and nanometrology automatic control robotics biomedical engineering photonics design manufacturing and testing of MEMS It is reflected in the list of contributors including an international group of 302 leading researchers representing 12 countries The book is intended for use in academic government and industry R D departments as an indispensable reference tool for the years to come This volume can serve a global community as the

definitive reference source in Mechatronics The book comprises carefully selected 93 contributions presented at the 11th International Conference Mechatronics 2015 organized by Faculty of Mechatronics Warsaw University of Technology on September 21-23 in Warsaw Poland *Simulation, Modeling, and Programming for Autonomous Robots* Davide Brugali, Jan Broenink, Torsten Kroeger, Bruce MacDonald, 2014-09-19 This book constitutes the refereed proceedings of the 4th International Conference on Simulation Modeling and Programming for Autonomous Robots SIMPAR 2014 held in Bergamo Italy in October 2014 The 49 revised full papers presented were carefully reviewed and selected from 62 submissions The papers are organized in topical sections on simulation modeling programming architectures methods and tools and systems and applications **Advanced Surface Enhancement** Sho Itoh, Shashwat Shukla, 2019-08-30 This book presents the proceedings of the first INCASE conference organised by ARTC at A STAR Singapore It provides a comprehensive review of recent advances in surface enhancement processes and strategies employed to assess their impact on materials properties and performance As cyber physical systems are becoming more and more relevant in manufacturing it focuses on assessing the readiness of current technologies for future transformations such as Industry 4.0 identifying the opportunities and challenges and exploring ways to address them Written by researchers practising engineering and industry experts the book bridges the gap between research and manufacturing promoting technology adoption in industry and innovative ideas to prepare it for the future *The National Guide to Educational Credit for Training Programs*, 1999 *21st International Symposium on Automotive Technology & Automation*, 1989 **Recent Global Research and Education: Technological Challenges** Ryszard Jabłoński, Roman Szewczyk, 2016-09-22 Developments in the connected fields of solid state physics bioengineering mechatronics and nanometrology have had a profound effect on the emergence of modern technologies and their influence on our lives In all of these fields understanding and improving the basic underlying materials is of crucial importance for the development of systems and applications The International Conference Inter Academia 2016 has successfully married these fields and become a regular feature in the conference calendar It consisted of seven thematic areas in the field of material science nanotechnology biotechnology plasma physics metrology robotics sensors and devices The book *Recent Global Research and Education: Technological Challenges* is intended for use in academic government and industry R D departments as an indispensable reference tool for the years to come Also we hope that the volume can serve the world community as the definitive reference source in *Advances in Intelligent Systems and Computing* This book comprises carefully selected 68 contributions presented at the 15th International Conference on Global Research and Education INTER ACADEMIA 2016 organized by Faculty of Mechatronics Warsaw University of Technology on September 26-28 in Warsaw Poland It is the second volume in series following the edition in 2015 It brings together the knowledge and experience of 150 leading researchers representing 13 countries We would like to thank all contributors and reviewers for helping us to put together this book *Proceedings*, 2002 *Metal Construction*, 1975 *The Design and Operation of*

 1997 Peter Kopacek,1997-07-02 The IFAC TC on Manufacturing Modelling Management and Control MIM was founded on
 the IFAC World Congress Sydney 1993 The goals of this workshop concerned the development comparison and classification
 of formal models in the field of Computer Integrated Manufacturing Systems in a descriptive as well as prescriptive way
 Computer Integrated Manufacturing Systems are able to integrate optimization methods simulation models procedures and
 knowledge based tools The target for the workshop activities were related to the specification of requirements for new
 models which are used in simulating and designing manufacturing management and control strategies including discrete
 event and continuous representations Technical areas of interest at the system level included tools for plant layout design
 process planning production planning and control Technical areas of interest at the component level included models for
 functional description of flexible manufacturing and assembly systems oriented to production activity control process
