Accounting Information Systems Leslie Turner, Andrea B. Weickgenannt, Mary Kay Copeland, 2020-05-07

Accounting Information Systems provides a comprehensive knowledgebase of the systems that generate, evaluate, summarize, and report accounting information. Balancing technical concepts and student comprehension, this textbook introduces only the most necessary technology in a clear and accessible style. The text focuses on business processes and accounting and IT controls and includes discussion of relevant aspects of ethics and corporate governance. Relatable real world examples and abundant end of chapter resources reinforce Accounting Information Systems (AIS) concepts and their use in day to day operation. Now in its fourth edition, this popular textbook explains IT controls using the AICPA Trust Services Principles framework, a comprehensive yet easy to understand framework of IT controls and allows for incorporating hands on learning to complement theoretical concepts. A full set of pedagogical features enables students to easily comprehend the material, understand data flow diagrams and document flowcharts, discuss case studies and examples, and successfully answer end of chapter questions. The book's focus on ease of use and its straightforward presentation of business processes and related controls make it an ideal primary text for business or accounting students in AIS courses.
