Read the passage and answer the questions below

A dam is a wall built across a river or a stream to control water. Dams are built to make a reservoir. A reservoir is a man-made lake in which water is stored and sent across the country in pipes so that people can use it for drinking, washing and cooking. Dams are also built to store water for irrigating fields in the dry season when there is no rain. In the past, dams were built to force water into narrow channels. Today very big dams are built to use the force of water to get electricity.

**A) Answer the following questions :**

1. When do we need water from Dams ?
