The Google Drive Trick Keeps My Files Perfectly Organized

As my business grows, I need a way to keep my files organized and easy to find. I've discovered a simple trick that works perfectly for me.

My secret is using Google Drive's "Folders" feature.

Google Drive allows you to create multiple folders, each with its own name and icon. This makes it easy to categorize your files.

For example, I have a folder called "2025-01-14_Draft_MU..." which contains all my current drafts. This keeps my workspace clean and organized.

Another tip is to use the "Share" button to control who can access your files. This ensures that only the right people can see your work.

Google Drive is a powerful tool for organizing your files. By using the "Folders" feature and the "Share" button, you can keep your workspace clean and organized.
