*An Occupational Therapy Practitioner's Guide to School-Based Practice* Karel L. Dokken, John S. Luna, Susan E. Still, 2024-08-19 Using a practical nuts and bolts approach to school based occupational therapy services this unique text guides both entry level and experienced practitioners through the evaluation intervention and dismissal process in an educational setting Beginning with an overview of the purpose of school based interventions the authors map out current populations programs and legal and licensing standards to give school based practitioners the knowledge to practice safely and ethically The book then explores how to successfully navigate the referral process from eligibility to intervention incorporating helpful tips and references to help establish patterns of best practice It also features numerous examples of current and reliable evaluations so that practitioners can expand their repertoire of assessments while ensuring a holistic avenue of care to reflect the distinct value of occupational therapy Written by authors with a wealth of experience in this field the book will be essential reading for both new and more experienced occupational therapy practitioners as well as students training towards working in a school based context

**Occupational Therapy Evaluation for Children : a Pocket Guide** Shelley Mulligan, 2014 In pediatrics occupational therapy practitioners are concerned most with positively impacting the extent to which children and their families are able to successfully and meaningfully go about their daily lives whether it be playing learning working caring for oneself or others or socializing Clinical decisions made throughout the evaluation process ultimately shape what and how occupational therapy practitioners deliver interventions perhaps making the evaluation process the most important and interesting part of the service delivery process It is the context where we first come to know and appreciate our clients their specific situations and discover what it is that we as occupational therapy practitioners can do to be of most help Provided by publisher
