Film is back And about time too We just were getting a little too comfortable with the idea of snapping selfies on our dumb
phones at the ends of vanity sticks when film returned to slap us up Film is not for the faint of heart It takes serious effort
serious time It costs money for each frame from buying the film to paying to develop it or developing it in a film tank Only
those interested in the unique and fantastic look of film will brave this path The Film Photography Book is for us those
interested in all aspects of film photography from choosing cameras and lenses to choosing film and subjects to buying
chemicals and processing The book can serve as a refresher to those who now are returning to film photography after a long
absence and as a getting started course for those who never shot film in their lives It s an adventure a new Voyage of
Photography part of Shawn M Tomlinson s Guide to Photography Series the beginning of a sub series about film photography
Come on along **Shooting Old Film Cameras** Paul Moore, 2013-12-30 When the Minolta SR T 101 first blasted on to the
scene in March of 1966 was greedy and wanted one so bad I was like one of Pavlov s dogs and salivated every time a new
article appeared in one of the many photography magazines featuring it Unfortunately many decades would pass before I
would be able to indulge the pleasure Incidentally as a matter of interest for those of unsatisfied curiosity the SRT stands for
Shashinki Refu Tashima the engineer who developed the through the lens metering innovations in the SRT series of cameras
This book is entirely pictorial and every image contained herein was taken with the Minolta SR T 101 35MM film camera
