Missions, States, and European Expansion in Africa Chima J. Korieh, Raphael Chijioke Njoku, 2007-04-25 Missions States and European Expansion in Africa aims to explore the ways Christianity and colonialism acted as hegemonic or counter hegemonic forces in the making of African societies. As Western interventionist forces Christianity and colonialism were crucial in establishing and maintaining political, cultural, and economic domination. Indeed, both elements of Africa's encounter with the West played pivotal roles in shaping African societies during the nineteenth and twentieth centuries. This volume uses a wide range of perspectives to address the intersection between missions evangelism and colonial expansion across Africa. The contributors address several issues including missionary collaboration with the colonizing effort of European powers, disagreements between missionaries and colonizing agents, the ways in which missionaries and colonial officials used language imagery and European epistemology to legitimize relations of inequality with Africans, and the ways in which both groups collaborated to transform African societies. Thus, Missions States and European Expansion in Africa transcends the narrow boundaries that often separate the role of these two elements of European encounter to argue that missionary endeavours and official colonial actions could all be conceptualized as hegemonic institutions in which both pursued the same civilizing mission even if they adopted different strategies in their encounter with African societies.

The Humanitarian Engagement of the Church in Nigeria Emmanuel Ayebome, 2019-05 Human dignity, decent life, and human rights are effects of extensive humanitarian struggles by a people to achieve reasonable life for all. The possibility of such El Dorado was stalled in the past by unforeseen circumstances and other man-made tribulations in global history. However, these struggles will remain incomplete without a global perspective. Thus, taking the responsibility to understand humanity and her shortfalls in other parts of the globe becomes necessary. This quest consequently triggers the thorough study on how, where, and why their plight is intrinsically tied to their social, cultural, religious, and political background. Such genuine consequent studies can uproot the causal effect and thus guarantee the success of that developmental slogan of helping people to help themselves. This study attempts to provide a platform that could chart a path towards sustainable answers to basic social questions.

African Agency and European Colonialism Femi J. Kolapo, Kwabena O. Akurang-Parry, 2007-08-15 This work provides insights into important moments in the European colonization project in Africa and into structural intersections between the active agents of colonialism and the different layers of Africa's socio-political structures. It reveals the indispensability of the African peoples, their pre-colonial establishments, and knowledge of the colonial encounter. The book also clarifies the significant impact that African people's choices, chances, mistakes, and internal politics had in structuring their colonial experience and European dominance. Colonized Africans and colonizing Europeans

had to negotiate the nature of their relationship the grid nexus and hierarchy of colonial power and authority were constantly under construction deconstruction and reconstruction African Agency and European Colonialism expounds upon these beclouded features of Africa s engagement of colonialism It is appropriate for students scholars political analysts sociologists and other professionals interested in the social and political history of Africa
