**Green Investment Climate Country Profile - Vietnam** Aldo Baietti, Andrey Shlyakhtenko and Roberto La Rocca, In July 2012 the Green Infrastructure Finance Framework Report was published to address the constraints in financing green infrastructure and to develop a new PPP based approach to accelerate investments in low emission technologies. The approach calls for assessing the Green Investment Climate of a given country in order to develop country specific recommendations for policy and incentive programs as well as other measures which can be introduced in order to further promote green growth in an economy. This report includes one of the first Green Investment Country Profiles completed for the East Asia and Pacific Region as part of bringing the approach closer to operational status. The initial countries include China Philippines Vietnam Malaysia Indonesia Singapore and South Korea. The assessment involves not only the green policy and incentives environment but also the country's overall natural resource endowment of fossil and renewable energy its industrial development strategy in addition to general business indicators and other considerations such as electricity prices the capacity of the financial sector to mobilize long term domestic financing as well as their overall regulatory and legal capacity to implement PPPs. The country profiles provide a general understanding of the attractiveness prevailing trends strengths and other aspects affecting the ability of the country
