Mirrors, Masks, Lies, and Secrets Karl E. Scheibe, 1979

The Mask of Normalcy George Serban, 2017-07-05 Psychologists view well adjusted behaviour as conformity the ability to navigate relationships and events within a framework of societal rules and regulations George Serban argues that a better test is how well an individual is able to navigate adverse situations by handling conformity's ambiguities and incongruities He uses clinical findings and content analysis to explore the interface between social conformity and nonconformist behaviours The definition of the normal is itself problematic since society's expectations are sometimes controversial arbitrary or equivocal As a result people who have problems coping with social conformity choose between degrees of nonconformity or hiding under what Serban calls a mask of normalcy Further complicating matters is that some nonconformist attitudes are now seen as normal supported by governmental policies tacitly favouring moral relativism A multicultural society is crisscrossed by shades of controversial values and mores New social codes of correct conduct blur the distinction between true and false right and wrong and social conflict simmers as a result What society perceives as well adjusted may even change within a society over time depending on prevailing social values Some noticeable variations have been within male female relationships and sexual morality Serban ultimately concludes that those who have learned how to manipulate social situations are viewed as well adjusted Those who have not are seen as struggling or maladjusted

The Drama of Everyday Life Karl Scheibe, 2002-03-15 Psychologists says the old joke know everything there is to know about the college sophomore and the white rat But what about the rest of us older than the former bigger than the latter with lives more labyrinthine than either In this ambitious book Karl E Scheibe aims to take psychology out of its rut and bring it into contact with the complex lives that most people quietly live Drama Scheibe reminds us is no more confined to the theater than religion is to the church or education to the schoolroom Accordingly he brings to his reflection on psychology the drama of literature poetry philosophy history music and theater The essence of drama is transformation the transformation of the quotidian world into something that commands interest and stimulates conversation It is this dramatic transformation that Scheibe seeks in psychology as he pursues a series of suggestive questions such as Why is boredom the central motivational issue of our time Why are eating and sex the biological foundations of all human dramas Why is indifference a natural condition caring a dramatic achievement Why is schizophrenia disappearing Why does gambling have cosmic significance Writing with elegance and passion Scheibe asks us to take note of the self representation performance and scripts of the drama that is our everyday life In doing so he challenges our dispirited senses and awakens psychology to a new realm of dramatic possibility

Secrecy and

Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from

that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian
