Missed Connections Love Lost Found:

Missed Connections Sophie Blackall, 2011-09-22 In her first book for adults the artist Sophie Blackall creates a deeply felt poignant book about love a book that captures the mystery the yearning at times the cosmic humor behind the what if of a missed connection Like a message in a bottle a missed connection classified usually posted on a website is an attempt however far fetched by one stranger to reach another on the strength of a remembered glance smile or blue hat The anonymous messages are hopeful and hopeless funny and sad Ms Blackall award winning illustrator of Ruby's Wish and Big Red Lollipop has turned some of the most evocative or hilarious of them into exquisite paintings Missed Connections is a collection of illustrated love stories There's We Shared a Bear Suit If Not for Your Noisy Tambourine Hairy Bearded Swimmer Each is told in the shorthand of a missed connection and then illustrated in Chinese ink and watercolor The paintings are extraordinary delicate yet full of feeling each springing from one little detail of the post into a fully imagined world Each brings the voyeuristic pleasure of watching love at first sight and the pleasure of watching an artist discover a fresh new way to tell a story And not all the connections are missed Hidden in the book are three pieces that conjure up the magic of love found

An Internet for the People Jessa Lingel, 2022-06-14 How Craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e-mail to some friends about cool events happening around San Francisco Craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn't profit off your data An Internet for the People explores how people use Craigslist to buy and sell find work and find love and reveals why Craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with Craigslist insiders and ordinary users Jessa Lingel looks at the site's history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines Craigslist's legal history describing the company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site Craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet
