Encounters Christianity John Chitakure,2017-11-07 Right from the beginning of humankind God has never deprived a people of his grace and revelation In fact God uses people's environment and culture to communicate his will There is no single religion that can claim to have the exclusive possession of God's revelation for God is too immense to be confined within one faith Hence it was erroneous blasphemous and misleading for some of the early Christian missionaries to Africa to claim that they had brought God to Africa a mentality that implied the non existence of God in Africa before their arrival Of course God was already in Africa but the missionaries either failed to discern his presence or just disregarded the traces of his existence This book explores the religious beliefs practices and values of the indigenous people of Africa at the time of the early missionaries arrival with particular reference to the Shona people of Zimbabwe It also evaluates the extent of the missionaries' successes and challenges in converting Africans to Christianity It finally surveys how African Christians have remained attached to the indigenous religious beliefs that used to provide answers to their existential questions

Pastoral Preaching Conrad Mbewe,2017-03-03 More and more pulpits are occupied by motivational speakers rather than preachers Church congregations are not being given a comprehensive biblical understanding of the faith Drawing on his own experience as a pastor in Zambia Conrad Mbewe tackles issues such as the content of pastoral preaching how pastoral preaching relates to church life finding the time to prepare pastoral sermons and dealing with discouragement Throughout the book it is clear that the author s conviction is to see preachers grow strong churches to build a people for God

Transfrontier Conservation Areas Jens Andersson,Michel de Garine-Wichatitsky,David Cumming,Vupenyu Dzingirai,Ken Giller,2017-07-14 The introduction of transfrontier conservation areas TFCAs in southern Africa was based on an enchanting promise simultaneously contributing to global biodiversity conservation initiatives regional peace and integration and the sustainable socio economic development of rural communities Cross border collaboration and eco tourism became seen as the vehicles of this promise which would enhance regional peace and stability along the way However as these highly political projects take shape conservation and development policymaking progressively shifts from the national to regional and global arenas and the peoples most affected by TFCA formation tend to disappear from view This book focuses on the forgotten people displaced by or living on the edge of protected wildlife areas It moves beyond the grand enchanting promise of conservation and development across frontiers and unfounded notions of TFCAs as integrated social ecological systems Peoples dependency on natural resources the specific combination of crop cultivation livestock keeping and natural resource harvesting activities varies enormously along the conservation frontier as does their reliance on resources on the other side of the conservation boundary Hence the studies in this book move from the dream of eco tourism fuelled development supporting nature conservation and people towards the local realities facing marginalized people living adjacent to protected areas in environments often poorly suited to agriculture
