

# COMPARE AND CONTRAST

Read the passage carefully. Identify if the given statements compares (CE) or contrasts (CT) the two characters.

Jen had a best friend whose name was also Jenn but with a double "n." They had beautiful brown eyes and blonde hair. But Jenn had long, wavy hair, while Jen had short, straight hair. They went to the same school and studied in the same class. They enjoyed playing sports together. They both excelled in their artistic talents, with a knack for drawing. One of them had a cat as a pet, while the other had a dog. They had different favorite colors, adding a unique touch to their friendship. They were responsible and often helped each other with homework. Coincidentally, their birthdays were in the same month. They loved their pets very much. Jenn took her cat wherever she went, while Jen's dog was her constant companion. However, tragedy struck when Jen forgot to close her dog's cage one day, and that was the last day she saw her pet. On the other hand, Jenn's cat brought joy to her life, and they played together every night.

Advancing Quantitative Methods in Second Language Research Luke Plonsky, 2015-07-03 Advancing Quantitative Methods in Second Language Research is the first hands on guide to conducting advanced research methods in the fields of applied linguistics and second language studies While a number of texts discuss basic quantitative research methodology none focus exclusively on providing coverage of alternative advanced statistical procedures in second language studies from a practical approach The text is bookended by discussions of these advanced procedures in the larger context of second language studies debating their strengths weaknesses and potential for further research the remaining chapters are how to sections each chapter following the same organization on a wide variety of advanced research methods By offering much needed coverage on advanced statistical concepts and procedures with an eye toward real world implementation Advancing Quantitative Methods in Second Language Research enhances the methodological repertoire of graduate students and researchers in applied linguistics and second language studies For additional content visit <https://lukeplonsky.wordpress.com/aqmslr>

*The TurnAround ToolKit* Lynn Winters, Joan Herman, 2011 Lynn Winters s and Joan Herman s The Turnaround Toolkit is written for school leaders who are focused on transforming instruction and who may be working under significant time constraints to reverse declining student achievement or public perceptions of school failure Based on the evidence that simply implementing continuous improvement is not enough to close the achievement gap The Turnaround Toolkit provides a nine step formative evaluation program designed to achieve an immediate and consistent focus on improving instruction in order to bolster student achievement In a straightforward and accessible fashion Herman and Winters explain three overarching Turnaround Tasks that frame these steps and the necessary and sometimes drastic actions that must be taken by school leaders as they use data to strategically choose implement monitor and revise school interventions A dedicated online toolkit offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators

**The Routledge Handbook of Second Language Acquisition and Technology** Nicole Ziegler, Marta González-Lloret, 2022-01-31 Technology mediated language learning has matured over the past few decades with various tools and contexts now widely used in language education for all ages and levels Many of today s language learners have experienced technology as an ever present feature both within and beyond the classroom highlighting how the role of technology has expanded into many daily activities and underscoring how research in Second Language Acquisition SLA can inform and support the use of established and emerging technologies The role of technology in language learning has continued to grow with the recent COVID 19 global pandemic further demonstrating the potential contributions of technology for supporting and facilitating second language development Answering this increasing interest

this Handbook provides students teachers and scholars with a comprehensive collection of chapters on foundational topics and key issues related to technology SLA and where relevant pedagogical applications Chapter 25 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

**Youtube in the Language Classroom** Sebastian Altenhoff, 2011-02 Seminar paper from the year 2009 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1.0 University of Duisburg Essen Anglophone Studien language English abstract According to Ellis learning a language means making use of the language in R. Schoff-Wolff 1999: 54 This not only implies the claim of free spontaneous communication but also of dealing with and of experiencing the target language as such The claim of experiencing the target language in the language classroom leads to a growing interest in the quality of the materials used According to Wolff 1998 any kind of learning no matter whether verbal or non verbal has to be embedded in a rich learning environment that has not been reduced concerning its complexity Authenticity is thus one of the main criteria in order to evaluate the quality of materials This criterion applies to all materials such as literature that have not been changed for the purpose of teaching and learning of course In this thesis however using authentic video in the language classroom will be considered and analysed according to its didactic benefits Integrating video in the language classroom does not necessarily mean having to watch and to analyse a whole film of ninety minutes Thanks to Web 2.0 applications such as YouTube the accessibility of short video clips advertisements or film excerpts has become very simple Because of the growing popularity of this webpage and of integrating Web 2.0 applications in the learning environments in general my entire analysis will relate to videos taken from YouTube This thesis aims to provide both a theoretical part I and a practical investigation part II of the topic in order to create a framework for analysis I will first of all give a short overview of the didactic benefits of integrating authentic video in the language classroom in general This survey is followed by a short description of the basic ideas of YouTube
