One Town, One Team Bruce Bertrand, 2023-01-26 When third year football coach Sherm Blaser walked into his first team meeting for the upcoming season he asked the team what their team goal should be for the upcoming season The first hand that went up was that of senior defensive lineman Benten Hall who suggested a winning season would be an appropriate team goal A winning season might not seem like a lofty goal but it is certainly a practical one The previous year the Kavemen did go 5 4 but finished sixth in conference play and did not make the playoffs Benten s sophomore and freshman years those varsity teams went a combined 7 12 In fact since Benten and his fellow seniors on the team started the first grade eleven years ago the Kuna football teams have a combined record of forty three wins and sixty two losses The football program has not won a conference championship since 1998 and has won just one playoff game this century Blaser was not seen as the savior of this program when he was hired two years before Before coming to Kuna his record was 15 21 at two previous schools In his two previous years on the Kuna campus his record was only 8 10 So how could this team led by this coach make it all the way to the state championship game Fortunately for me my son Ryan who was starting his fourth season as part of Sherm Blaser s coaching staff and was living with me as he was finishing his master s program in psychology so I had a front row seat to this amazing season

Counterfeit Amateurs Allen L. Sack, Ara Parseghian, 2012-04-06 With a Foreword by Ara Parseghian The debate over big time college sports never far from the front pages has once again moved from simmering to hot Congress has been investigating the tax exempt status of the NCAA in part because of questions about how commercialized college sports contribute to educational values Athletes are challenging the NCAA on antitrust grounds to get a bigger share of the revenue Against this backdrop more faculty are beginning to be concerned about what is happening at their own universities and to the educational system as a whole as rampant commercialism further invades campus life through big time sports A leader among faculty fighting back has been Allen Sack a co founder of the Drake Group whose writings and public appearances including work as an expert witness have gained him wide recognition as an outspoken advocate for athletic reform This book brings together in a compelling way both his personal story of life as a highly recruited athlete out of high school and a football player at Notre Dame under legendary coach Ara Parseghian and his fight since then as a scholar activist against what he calls the academic capitalism of the system under current NCAA rules Sack distinguishes his own position as an advocate of athletes rights from the reformist stance of NCAA President Myles Brand who believes that commercialized sport and education can peacefully coexist and the intellectual elitist position of people like William Dowling who would like to see big time college sports kicked off campus altogether It is a battle with high stakes for all concerned not least the athletes whose exploitation by the system
