*Minority Language Broadcasting* Helen Kelly-Holmes,2001 This volume examines the historical context current state of and future prospects for broadcasting in minority languages taking Irish and Breton as case studies Practitioners and academics from a variety of disciplines come together to identify and debate the key issues that will mean success or failure for minority language broadcasting in the new millennium

**Guidelines on the use of Minority Languages in the Broadcast Media** OSCE High Commissioner on National Minorities,Organizacja Bezpieczeństwa i Współpracy w Europie.

Office of the High Commissioner on National Minorities,Organization on Security and Cooperation in Europe. High

Commissioner on National Minorities,2003 **Minority Language Media** Michael J. Cormack,Niamh Hourigan,2007-01-01

This book is an international collection of essays by 14 researchers Included are essays on general topics on minority language media as well as studies of specific examples The contributors are all experienced researchers in this field Taken as a whole the book is the first attempt to define and develop minority language media as a distinct field of study

**The European Charter for Regional Or Minority Languages and the Media** Tom Moring,Robert Dunbar,2008-01-01 This publication is based on a study that was prepared for the Secretariat of the European Charter for Regional or Minority Languages to inform the future application of those provisions of the charter relating to the media At the charter secretariat

it was felt that it would be appropriate to make this study accessible to a wider audience in order to assist in the application of these charter provisions In particular it is hoped that this publication will be useful to governments which have signed and ratified or are considering signature and ratification of the charter in order to better understand some of its obligations to public servants charged with the task of implementing such obligations to users of regional or minority languages and those non governmental organisations which represent them in assessing the choice of obligations and the challenges of implementation and to a broader public interested in these issues not least media outlets themselves which play no small part in the successful implementation of charter obligations

**African Radio and Minority Languages** Limukani

Mathe,2025-04-03 Within Africa radio provides an important platform for accommodating diverse linguistic groups and enabling speakers to express themselves in their own local languages This book investigates how radio broadcasting across the continent provides a platform for cultural participation and the representation of minority language speakers in a contested public sphere In African media a fierce contest wages for representation and participation in which majority languages often emerge at the exclusion of minority ethnolinguistic groups This book considers the important role that radio

can play in broadcasting in minority languages Drawing on in depth original analysis ethnographic observation and interviews with minority language radio hosts and guests from across South Africa Zimbabwe Nigeria Malawi Namibia Mozambique Lesotho and Kenya this book considers to what extent African radio is accommodative of minority languages and what the challenges and prospects are for this Ultimately the book argues that radio s three tier system of broadcasting

through analogue and digital radio leaves the medium of radio particularly well placed to provide equal access for ethnolinguistic groups in Africa This ambitious and broad ranging study will be an essential read for scholars and students of media studies and sociolinguistics in Africa *Social Media and Minority Languages* Elin Haf Gruffydd Jones, Enrique Uribe-Jongbloed, 2012-02-22 This book includes case studies theoretical debates international comparisons on minority languages and presents a research agenda for the development of the field of Minority Language Media studies It addresses the challenges present in multi platform mobile communication environments focusing on the pitfalls and opportunities brought about by social media and other Web 2.0 applications *Minority Language Broadcasting in Wales* Birgitte Magnussen, 1993

**Language, Minorities and Human Rights** Fernand de Varennes, 2021-09-27 One of the most vexing issues in many of the world's so called ethnic or minority conflicts is the question of language use by the State and its citizens While international and national law has traditionally viewed language preference to be within a State's prerogative at least when involving governmental activities and machinery this position has proved to be a continuous source of acrimony and conflict and wrong in some respects *Language Minorities and Human Rights* is the most complete book ever written on the topic providing for the first time an analysis of every aspect of language and the law In addition to presenting a theoretical model for language's particular position and relevance in human rights it constitutes an invaluable reference document by including the provisions of close to 100 international multilateral and bilateral instruments involving language rights as well as the constitutional provisions of 140 countries dealing with language By addressing little explored areas such as the language rights of indigenous peoples non citizens and even the use of script in addition to more traditional topics such as nationalism and language freedom of expression and non discrimination *Language Minorities and Human Rights* proposes a complete descriptive picture of language and human rights as well as proposing a number of suggestions on how to address and balance the many problems currently caused by the linguistic demands of various individuals and the interests of states in nation building

*National Minority Standards* Council of Europe, Organization for Security and Co-operation in Europe, OSCE High Commissioner on National Minorities, 2007-01-01 The Organisation for Security and Co-operation in Europe OSCE and the Council of Europe guided by the same values and with similar goals and sharing similar challenges have co-operated to produce this compilation of texts addressing national minority issues The aim of this book is to highlight the standards developed for national minorities and to make them known to everyone including civil society and the authorities directly concerned

**Double Standards Pertaining to Minority Protection** Kristin Henrard, 2010-10-05 While allegations of double standards are mostly voiced in relation to the EU this book takes a multidimensional approach to the use of differential standards concerning minorities and minority protection Not only do academics from different disciplines contribute to the volume but the multidimensionality also resides in the fact that several international organisations active in the field of minority protection are included in the analysis Furthermore differential standards are

also discussed in relation to the ongoing debate about the status and rights of new minorities Finally the challenge of protecting minorities and other vulnerable groups within minorities is addressed In the process the book revisits the fundamental tenets of minority protection as well as the basic rational of the international organisations concerned

African Radio and Minority Languages Limukani Mathe,2025 Within Africa radio provides an important platform for accommodating diverse linguistic groups and enabling speakers to express themselves in their own local languages This book investigates how radio broadcasting across the continent provides a platform for the cultural participation and the representation of minority language speakers in a contested public sphere In African media a fierce contest wages for representation and participation in which majority languages often emerge at the exclusion of minority ethnolinguistic groups This book considers the important role that community radio stations can play in broadcasting in minority languages Drawing on in depth original analysis ethnographic observation and interviews with minority language radio hosts and guests from across South Africa Zimbabwe Nigeria Malawi Namibia Mozambique Lesotho and Kenya the book considers to what extent African radio is accommodative of minority languages and what the challenges and prospects are for this Ultimately the book argues that radio s three tier system of broadcasting through analog and digital radio leaves the medium of radio particularly well placed to provide equal access for ethnolinguistic groups in Africa This ambitious and broad ranging study will be an essential read for scholars and students of media studies and sociolinguistics in Africa Provided by publisher

**Tikanga** Ruth Lysaght,2010    **Social Media and Minority Languages** Elin Haf Gruffydd Jones,Enrique Uribe-Jongbloed,2013-02-22 As a field in its own right Minority Language Media studies is developing fast The recent technological and social developments that have accelerated media convergence and opened new ways of access and exchange into spaces formerly controlled by media institutions offer new opportunities challenges and dangers to minority languages and especially to their already established media institutions This book includes debates on what convergence and participation actually mean a series of case studies of specific social media developments in minority language as well as comparative studies on how the cultural industries have engaged with the new possibilities brought about by media convergence Finally the book also offers a historical review of the development of Minority Language Media worldwide and evidences the areas in which more extensive research is required    **Broadcasting in Irish** Iarfhlaith Watson,2003 In the first book of its kind Iarfhlaith Watson explores the role of Irish broadcasting in sustaining and promoting the Irish language and a sense of national identity He discusses the ambitions of the Irish Free State in relation to the establishment of the Dublin broadcasting station 2RN in 1926 and the presence of Irish language programs on national radio and from 1962 on television channels He describes the campaigns for the establishment first of Raidi na Gaeltachta in 1972 and second of Teilifs na Gaeilge later TG4 in 1996 and the debates which they engendered presenting the arguments for and against the ideologies and practicalities of the production presentation and reception of Irish language programs on all Irish channels
