Nmc Guidelines For Mentoring Students:

Successful Mentoring in Nursing Liz Aston, Paula Hallam, 2014-01-09 Supporting students poses a significant challenge for nurse mentors and other healthcare professionals in today's world of practice. Recent concerns over the fitness to practice of nursing students at the point of registration and the move to all graduate pre-registration programmes require new approaches to practice learning and mentoring the nurse of the future. The book offers clear practical advice on how to acquire and develop mentorship skills to support degree level nursing students. It has been fully updated to include more detailed advice on what to do when a student is failing, how to approach assessment and provides more examples of mentoring in community placements. This book is a comprehensive and affordable guide suitable for all nurses, midwives and health professionals undertaking a mentorship course to support nursing students. **Mentoring, Learning and Assessment in Clinical Practice** Ci Ci Stuart, 2013-06-20 This is a how to do it practice centred book providing workable educational strategies to assist busy practitioners supervise and support the learning and assessment of learners during clinical placements to achieve valid and reliable assessments. All strategies are underpinned by a solid theoretical and evidence base. The complexity and challenges of mentoring learning and assessing in the clinical setting are specifically addressed. Particular focus on the management of the non-achieving and failing student with reference to extensive recent work on mentoring learning and assessment of clinical practice. Critical exploration of professional accountability and associated legal ramifications surrounding learning and assessment of clinical practice. Detailed consideration of how to use a model for learning from experience as a framework to facilitate experience based learning. Extensive reference to the legislation, standards and guidelines on pre-registration health care education published by the Nursing and Midwifery Council (NMC) and the Health and Care Professions Council (HCPC). Additional material on the monitoring and assessment of professional conduct and behaviours. **The Nurse Mentor's Handbook** Danny Walsh, 2010-10-01 All nurses have a duty via their professional code of conduct to pass on their knowledge and this book is the ideal companion text for all new and trainee nurse mentors. This book provides a unique guide to strategies and ideas to help devise and enhance learning opportunities for their students. With a practical and accessible style, the book answers all those questions that mentors may have about the mentoring role, including: How can I create a good learning environment? How should I assess students in practice? How do I support failing students? What should I include in my mentors portfolio? The book includes cases, quotes from practitioners, strategies, tools and interventions that you can use in clinical practice. *The Nurse Mentor's Handbook* is centred around the Nursing and Midwifery Council (NMC) mentor standards and is easy to relate to nurse mentor courses and the requirements for effective updating. **Handbook of Quality Assurance for University Teaching** Roger Ellis, Elaine Hogard, 2018-07-03 This practical and authoritative handbook provides a comprehensive overview of the issues and approaches to assuring quality in university teaching. Including contributions from major international figures, the book

contains a wealth of ideas and practical advice to help universities commit to quality in teaching and offers insights into how the topics raised can be directly applied. The book initially identifies some of the key issues surrounding the topic such as the evidence based identification of teaching quality, the training of university lecturers and faculty, external and internal quality assurance, the tension between professional autonomy and governmental regulation and the involvement of students in developing quality. It then moves on to present ideas and initiatives to address these problems, tackling the subject through four sections: Assuring Quality (questioning what quality assurance means and how it might be practised), Identifying Quality (examining what knowledge exists at present and how it might be further researched), Developing Quality (investigating the development of staff through teacher training and appraisal), and Case Studies of Quality Assurance (reviewing six case studies of quality assurance in a range of contrasting subjects including the professional subjects of Medicine, Nursing and Teacher Training, which are also addressed systemically in the first section).

Full of practical advice, *Handbook of Quality Assurance for University Teaching* is an invaluable and unique resource for Faculty, Subject Leaders, University Administrators and Quality Assessors. **Nursing Times, Nursing Mirror**, 2009. *Nursing Times*, 2008. Leadership and Management in Healthcare Neil Gopee, Jo Galloway, 2017-03-06. Now in its Third Edition, this best selling textbook continues to support you on your journey from being an emerging registered healthcare professional through to becoming a competent care manager. Action points, case studies and strong practice guidelines enable you to understand how leadership and management theory applies to the care you deliver in a wide range of care settings. Fully updated throughout, the new edition includes more case studies and examples from a wide range of care settings and countries. New key topics such as dimensions of leadership, NHS Change Model, transition to registered practitioner and revalidation requirements, emotional intelligence and resilience. A companion website with access to further case studies, journal articles and web links. This book is essential for nursing health and social care students taking modules on leadership, management and transition to practice in their final year as well as for newly qualified professionals or those seeking to refresh their skills. *The Nurse Mentor's Handbook: Supporting Students in Clinical Practice 3e* Danny Walsh, 2020-11-18. Out with the old and in with the new. Looking back on my nurse training I can vividly recall clinical placements where I was mentored by inspirational, dynamic, enthusiastic and nurturing mentors. However, I can equally recall the toxic mentors that ruined clinical placements and made me question whether I wanted to be a nurse at all. Supporting students in clinical practice is a privilege and getting it right is essential. Danny Walsh's book demystifies the NMC's SSSA document and provides a real insight into the meaning of the word mentorship along with practical advice on how to be a practice supervisor. Mike Parker is an Associate Professor in Emergency Nursing at the University of York, UK. This is a real world book that offers practice supervisors and assessors detailed guidance on their new role within the context of the recent NMC 2018 standards for supervision and assessment of students. It gives information on the background, policy to the standards and what is expected of nurses who take on these new roles. The book provides the
