**No Safe Place** Phil Brown,Edwin J. Mikkelsen,1997-10-10 Toxic waste contaminated water cancer clusters these phrases suggest deception and irresponsibility But more significantly they are watchwords for a growing struggle between communities corporations and government In No Safe Place sociologists public policy professionals and activists will learn how residents of Woburn Massachusetts discovered a childhood leukemia cluster and eventually sued two corporate giants Their story gives rise to questions important to any concerned citizen What kind of government regulatory action can control pollution Just how effective can the recent upsurge of popular participation in science and technology be Phil Brown a medical sociologist and Edwin Mikkelsen psychiatric consultant to the plaintiffs look at the Woburn experience in light of similar cases such as Love Canal in order to show that toxic waste contamination reveals fundamental flaws in the corporate governmental and scientific spheres The authors strike a humane constructive note amidst chilling odds advocating extensive lay involvement based on the Woburn model of civic action Finally they propose a safe policy for toxic wastes and governmental corporate responsibility Woburn the authors predict will become a code word for environmental struggles

Sharon Brintnell,Erika Goble,Leon Kagan,Linda Kreitzer,Denise Larsen,Brendan Leier,2013-08-21 First used to describe the weariness the public felt toward media portrayals of societal crises the term compassion fatigue has been taken up by health professionals to name along with burnout vicarious traumatization compassion stress and secondary traumatic stress the condition of caregivers who become too tired to care

Compassion long seen as the foundation of ethical caring is increasingly understood as a threat to the well being of those who offer it Through the lens of hermeneutic phenomenology the authors present an insider s perspective on compassion fatigue its effects on the body on the experience of time and space and on personal and professional relationships Accounts of health professionals alongside examinations of poetry images movies and literature are used to explore the notions of compassion hope and hopelessness as they inform the meaning of caring work The authors frame their expos of compassion fatigue with the very Canadian metaphor of lying down in the snow If suffering is imagined as ever falling snow then the need for training and resources for safe journeying in winter country becomes apparent Recognizing the phenomenon of compassion fatigue reveals the role that health services education and the moral habitability of our healthcare environments play in supporting professionals ability to act compassionately and to endure **The Ptsd Workbook** Mary Beth Williams,2009-12 Trauma survivors need to find ways to work through their experiences and get a sense of meaning and understanding is great While the majority of those who have experienced direct trauma or who have witnessed trauma will heal even persons who do not develop full blown post traumatic stress disorder or PTSD will experience a number of the symptoms of post traumatic stress flashbacks intrusive thoughts and memories hyperreactivity avoidance of persons places things and other triggers jumpiness and other symptoms Other persons have experienced lifelong traumas that are character changing many of these people suffer from a syndrome that researchers are just beginning to describe called complex PTSD This workbook was conceptualized as a resource for the survivor who experiences a few or many of the symptoms of PTSD or complex PTSD When we were first asked to develop this book we asked colleagues to share exercises that might help survivors do the work themselves We also began to focus on the exercises we use in our own clinical work Indeed our clinical experience is what makes us qualified to author this book Both of us are primarily grunt workers in the trenches of the field of trauma We have met with many clients on a regular basis for both short term and long term therapy That extensive

experience allows us to say that though the road of healing may be long and difficult healing can and does happen In this workbook you will have the opportunity to complete numerous exercises that will give you insight into your symptoms your beliefs your behaviors and your feelings about the trauma or traumas you endured Many of these exercises can be completed in the book itself so that the book becomes a record of your recovery from trauma as well as a resource for you to turn to again and again throughout that recovery Other exercises can be completed in a separate notebook or journal which can also be used to expand upon the exercises you complete in the book or to record your other thoughts and feelings along your journey to healing We hope that this book will help you on that journey
