Healthy Cooking In A Jiffy: The Complete No Fad, No Diet Handbook Prasenjeet Kumar, 2015-06-14 A Complete No Fad No Diet No Nonsense Healthy Eating Cookbook And That Too In A Jiffy Amazon 1 Hot New Releases in Healthy Cooking If you have ever wondered how you can be healthy at home without dieting following any peculiar fads eating any expensive esoteric foods injecting any hormones or downing any pills potions or supplements you have come absolutely to the right place. In fact without bothering about the risk of sounding so old fashioned author Prasenjeet Kumar declares that He does not think that anyone should be on a perpetual diet to stay healthy. In this book therefore he recommends that you do not follow any of the rather peculiar diet regimes such as a low carb high protein diet low fat diet Vegan diet unless you truly believe in the vegan philosophy or any kind of crash diets. From his own experience he says that that they will all do you more harm than good. Instead the author recommends going to the basics that of following a balanced diet regime. In that background this healthy cookbook presents a veritable cornucopia of easy recipes to give you an idea of what you can cook to achieve your target of having regularly a balanced diet. You will find ideas on not only healthy Indian cooking but also on how to cook your vegetables in a simple and tasty manner how to handle pasta recipes chicken recipes fish recipes mutton recipes milk shakes even if you hate drinking plain milk quick healthy breakfast lunch dinner recipes and some healthy Asian recipes when you feel the need to have something different and exciting. Surprisingly you will find some supposedly unhealthy recipes as waffles pancakes French toasts lasagne and lamb moussaka too in this healthy cookbook for two. The author's short answer is that the wonderful taste of these dishes makes you happy and being happy and full of serotonin is more than half way to being healthy. Moreover as the author believes any sensible person will have these dishes only once in a while when you are bored eating your regular stuff Again quite boldly the author declares that personally he does not count calories in his diet oops recipes He feels that counting calories can actually drive you mad. This book celebrates exactly this very viewpoint and deliberately with some justifiable pride eschews providing any calorific or nutritional information for the listed recipes. If you want to still count calories feel free to do so by taking advantage of so many tools that are readily available on the internet the author advises. At the end of this book there are tips relating to how you can manage to have five to six small meals a day regardless of your busy schedule how you can exercise even if you are not a gym person how to freeze and preserve leftovers and finally how to sequence and parallel process your actions so that you save time while cooking your meals. So if you are sick of dieting counting calories or gorging on supplements do consider investing in this book of simply sensible cooking and get on
