*Running a Successful Live Service Game* Sergei Vasiuk, 2024-12-03 This book unveils the secrets of extraordinarily successful games and hands you a smarter way to create exceptional engagement and convert it into revenue. It teaches you detailed LiveOps techniques that show you how to keep your game appealing through engaging events, personalized experiences, and smart monetization. You'll discover the 3 LAPs of Operations framework, a dynamic question driven process that you can implement to systematically boost retention and achieve your game's financial goals. The book delves into the intricate business of live service games, explaining how to enhance your operational efficiency with precise toolset implementations and analytics. While some studio leaders merely talk about riding the trend, this approach is far too passive. Embrace the shift towards people driven game development where your players evolve from mere consumers into active co-creators. This transformation allows you to construct your own trend known as People's LiveOps, where you engage your most devoted fans and offer them opportunities to earn a living through their creations. Essential for professionals in live service games, this book is also invaluable for aspiring talents and seasoned experts aiming to enter or excel in the gaming industry.

**Power On** Ash Brandin, 2025-08-26 From The Gamer Educator an openminded guide to parenting alongside screens and gaming offering practical solutions to managing your family's screen time. Parents are feeling mounting pressure to minimize screen time but are struggling to do so in our technologically driven world. In contrast to the fear and pressure parents are facing, Ash Brandin's *Power On* offers a calm and reassuring message that keeps the wellbeing of the whole family in mind. *Power On* powerfully reframes our current dialogue around technology beginning with the morality placed on screen time and leisure and the systemic factors contributing to it. Brandin replaces fear with empowerment giving caregivers tools and strategies for safely incorporating tech into their children's lives, guiding children to having a healthy relationship with screens with easy to implement approaches such as The ABCs of the Screentime Management Elements: Access, Behavior, Content. The Managing Online Safety S T A R Settings, Time, Ads, App Store, Restriction, The N I C E Screentime Boundaries, Needs, Input, Consistent, Enforceable. And several other sets of steps, tools, and strategies to understand, manage, and effectively utilize tech in parenting. With today's parenting advice being awash with unhelpful negative judgements on screens and little realistic actionable advice, Ash Brandin provides timely, realistic direction that will empower readers to find a balance with screen time that works for the entire family.

The Age of Decentralization Sam Ghosh,Subhasis Gorai,2024-10-15 The Age of Decentralization talks about various decentralization technologies including Web3 decentralized identity and decentralized storage and how they can be incorporated in traditional tech architectures to improve technical and business performance In this book the authors take us on a journey through the tech landscape exploring how decentralized technologies including Web3 are on the verge of becoming mainstream and offer a practical roadmap for understanding and embracing this shift Web2 brought us the great centralization by centralizing not only data but also business processes blurring the industry boundaries So payment platforms started offering e commerce services and ride hailing services started delivering food Scale became the most effective moat But at the same time these huge platforms became a magnet for security threats and started violating user privacy rights and consumer rights The authors argue that the technological regulatory and social landscape is ready for the next evolution of technology systems as decentralization technologies get incorporated into traditional architectures This book serves as a guide for readers to understand the fundamentals of Web3 along with other decentralized technologies and creates a framework for incorporating them into traditional architectures At the same time the authors explore the organization level as well as the macro implications of decentralized technologies

*New Directions in Childhood Studies* James M. Curtis,2024-01-04 New Directions in Childhood Studies Innocence Trauma and Agency in the Twenty first Century acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood The chapters in this collection examine contemporary children s literature film and video games to explore the ways in which everyday realities like trauma disaster and death impact the experience of childhood in America today In many ways the essays show the narratives blur traditional lines between children s and adult content taking children series as subjects while also guiding them through the processes of dealing with the particular challenges Collectively the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture
