No Freedom without Regulation Joseph William Singer, 2015-09-08 Almost everyone who follows politics or economics agrees on one thing more regulation means less freedom Joseph William Singer one of the world's most respected experts on property law explains why this understanding of regulation is simply wrong While analysts as ideologically divided as Alan Greenspan and Joseph Stiglitz have framed regulatory questions as a matter of governments versus markets Singer reminds us of what we've willfully forgotten government is not inherently opposed to free markets or private property but is in fact necessary to their very existence Singer uses the recent subprime crisis to demonstrate Regulation's essential importance for freedom and democracy Why consumer protection laws are a basic pillar of economic freedom How private property rests on a regulatory infrastructure Why liberals and conservatives actually agree on these relationships far more than they disagree This concise volume is essential reading for policy makers philosophers political theorists economists and financial professionals on both sides of the aisle

England Edmund King,2001 **Yorkist Lord** Anne Crawford,2010-02-25 John Howard baron Howard and first duke of Norfolk was one of the most important men of the Yorkist period He was a consistently loyal supporter of the Yorkist dynasty from the late 1450s until his death at Bosworth in 1485 He was an indefatigable royal servant active in the military field as an agent of the Crown at home in East Anglia as a councillor at Westminster and as an ambassador who became England's leading envoy to France And yet there were other men of the period equally significant in their careers for whom no biographies have been forthcoming To the question why write a biography of John Howard one answer must be because we can With the exceptions of the kings he served no other man of the fifteenth century peerage has left us so much in the way of evidence of his day to day life not only of his royal service but his domestic concerns Information about other men of his time depends largely on well documented political or administrative action very little information is available on their private lives The same is not true of Howard The unparalleled records that he left behind are four volumes of household memoranda covering the periods 1462-1471 and 1481-1483 The memoranda were a daily record of the money received and dispersed by Howard himself his family and senior household members The lack of distinction between business and domestic concerns and the great range of subjects from payments for ships to laces for his wife's gowns are what make them so illuminating Taken together these surviving records illustrate almost every aspect of his life and bring him alive talented efficient ambitious and not above some dishonourable dealings short tempered paternalistic and loyal **Life in Medieval England** John Joseph Bagley,1961 Designed to give the reader a general impression of life in a castle village town or monastery during the different centuries of medieval times in England The British National Bibliography Arthur James Wells,2005
